Туя

Береза

A photograph of a viburnum tree (Rябина) with green leaves and clusters of red and black berries. The tree is shown in a close-up view, with the branches and leaves filling most of the frame. The berries are in various stages of ripening, with some being bright red and others being dark black. The background is a bright, slightly overexposed sky.

Рябина

Шиповник

A close-up photograph of a burdock plant (Rapeynnik). The image shows several clusters of spiky, reddish-brown flower heads (capitula) on a green stem. The leaves are large, green, and serrated. In the background, there are more green leaves and some small, round, greyish fruits. The overall scene is brightly lit, suggesting a sunny day.

Rapeynnik

Земляника

Клевер

Тысячелистник

Суреница

A close-up photograph of a plant with several bright yellow, five-petaled flowers. The leaves are green and deeply lobed, resembling a buttercup. The background is a dense field of similar foliage.

Ланчатка

Mox

Шампиньон

The image shows two large, brown, textured mushrooms growing in a grassy field. The mushrooms have a bumpy, almost scaly surface and are surrounded by green grass and some dry, yellowish stalks. The lighting is natural, suggesting an outdoor setting. A decorative banner is overlaid at the bottom left, and a red circle is in the bottom right corner.

Свинушка

Лишайник

A close-up photograph of several green pea leaves. The leaves are heavily infested with white, powdery mildew spots, which are most prominent on the upper surfaces. The spots vary in size and density, covering large portions of the leaf area. The background is dark and out of focus, showing more greenery and a thin, curly vine.
