Crime and Terror in Europe: Where the Nexus is Alive and Well

Policy Brief | 12 Dec 2016

Rehabilitating Juvenile Violent Extremist Offenders in Detention

Fear and resilience

- ▣ After the 11th of September investments into counterterrorism were increased
- ▣ Terrorism has a great impact on society which diminishes effectiveness of counterterrorism
- ▣ High level of fear causes:
 - ▣ Distrust and stereotyping
 - ▣ Preference for tough actions and simple explanations (by Media)
 - ▣ Polarization of society

Fear and impact Management

- ▣ Organization of fear management
- ▣ Cooperation
- ▣ Establishing partnerships with relevant actors
- ▣ Listening to the public`s concerns (it`s important to give honest answers and avoid secrecy to help authorities to avoid further attacks
- ▣ «Gold hour» (Give factual information; explain current situation)
- ▣ In case of incomplete picture give concise messages in one tone of voice. Keep communication with public no matter what – no news is good news. Be aware of risk of overreaction and avoid unnecessary rhetoric

Resilience

- ▣ The authorities have to care for the public
 - ▣ Do not focus on the direct victims but also the survivors or traumatized ones
 - ▣ Fear/impact management should be a part of counterterrorism
- 
- ▣ Terrorism will become less effective

Future of terrorism

- ▣ Impossible to predict the changes of weapons and tactics
- ▣ Insight into possible future
- ▣ Look at past attempts to avoid terrorism and add to this list another ways
- ▣ Obvious forecasts:
 - ▣ Terrorism will exist
 - ▣ It`s not static → terrorism will definitely change
 - ▣ Terrorism is influenced by many factors : economical, geographical, political, ethnic, religious etc.

Failure of imagination

- ▣ There are limited insights about the cause of terror changing
- ▣ Current forecasts say more about today`s terrorism than the future
- ▣ Most forecasts are made by men ,mainly from Western countries , who had little experience in counterterrorism and their works are not transparent enough or systematic in counterterrorism approach
- ▣ We have to come up with new ideas/ fresh pair of eyes/ out-of-box thinking
