

A scenic photograph of a sunset over a large body of water, likely Lake Svityas. The sun is low on the horizon, creating a bright, golden glow that reflects on the water's surface. The sky is filled with soft, wispy clouds, and the water shows gentle ripples and small waves. The overall mood is peaceful and serene.

Resort development on the Lake Svityas

Svityaz Lake is situated in the Shatsk National Natur. Park in Volyn region. This is the deepest, biggest and one of the cleanest lake in Ukraine.

Svityaz Lake attracts tourists by its sandy beaches, fresh air and the green forest. The water in the lake contains of silver and glycerin, so it is very useful for health.

It is a good idea to built there some new hotels.

For the successful development of the resort, we must restore old buildings for recreation and improve service levels. To a great place visited not only Ukrainian but also foreign visitors.

There can build airport is very beneficial for people who want to relax, improve your health, but have little time. It is a comfort for foreign tourist.

THANK YOU FOR YOUR ATTENTION
