

*AMERICA IN
CLOSE-UP
THE ARTS*

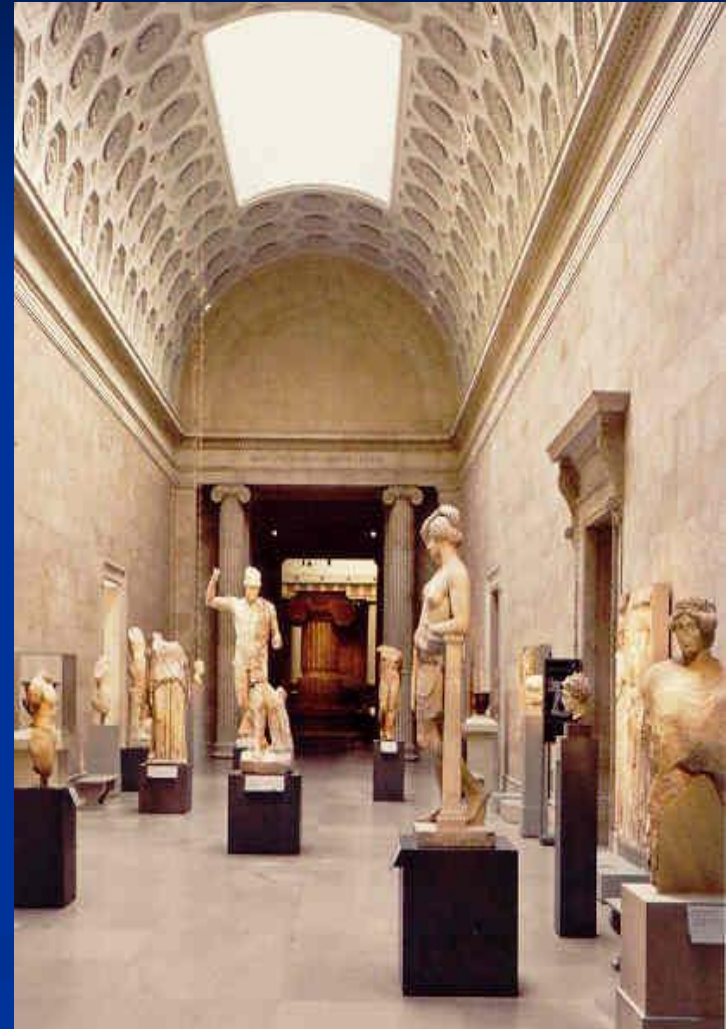

- The stereotype:
 - culture in USA = TV+sports
 - But!
 - + theatre
 - + cinema+museums
 - +pop/country/rock festivals+ etc...
 - These activities are growing from
year to year

The government support
is very little

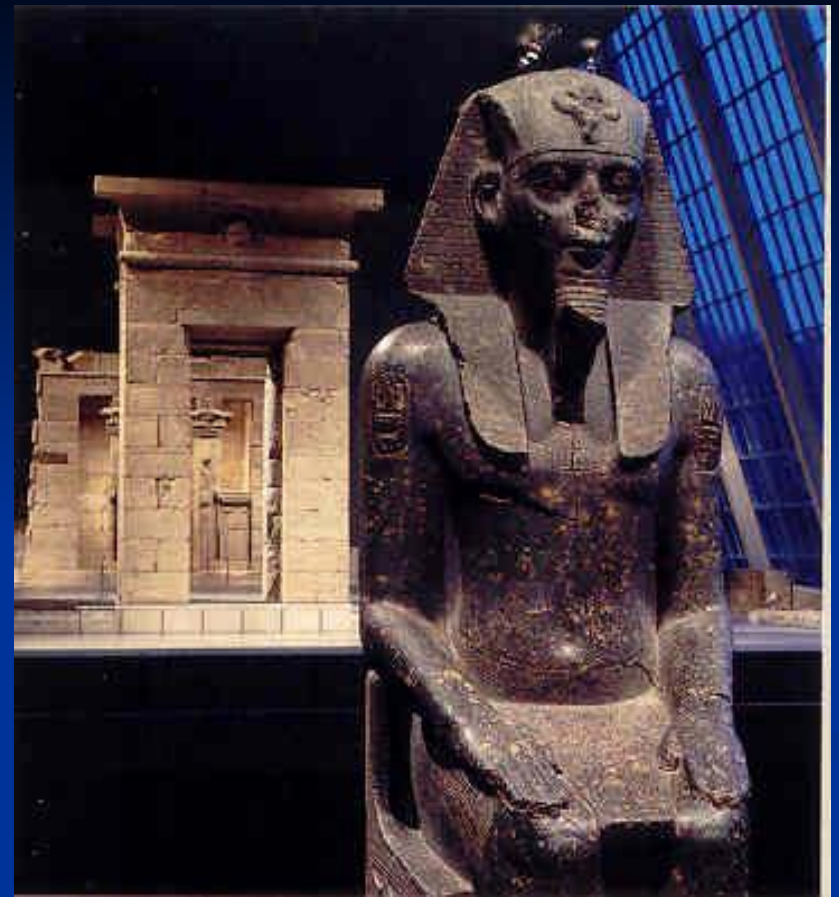

Promotion of arts is
through private and
commerical funding

- America is “melting pot” of languages and cultures.
- The artists try to create their own style.
- The styles of American art are as diverse as the people
- A lot of influences: European Arts, ethnic cultures ...
