It was ...
Until I installed ArchLinux.

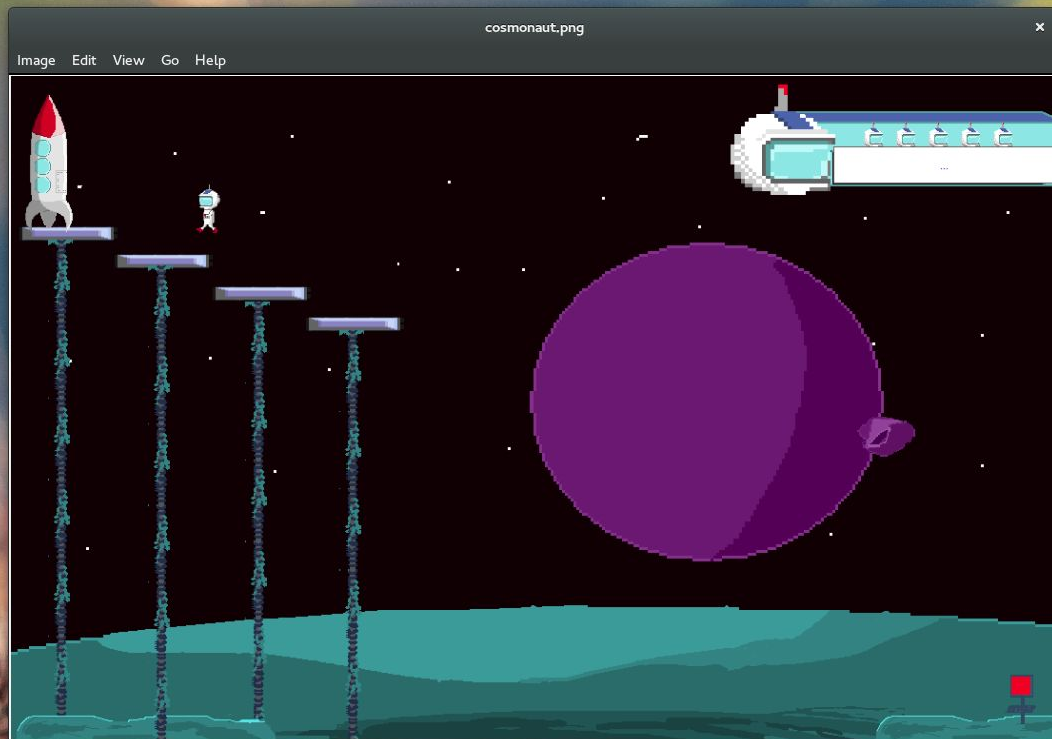

I have many friends.
And I like spending time with

This is me with my
nephew Svyatoslav.

Together we did a lot of
stupid things and not
very.

For example, the game

Now, I study at the
College of information
technology in the
group 4434.

This year we are
finishing college!

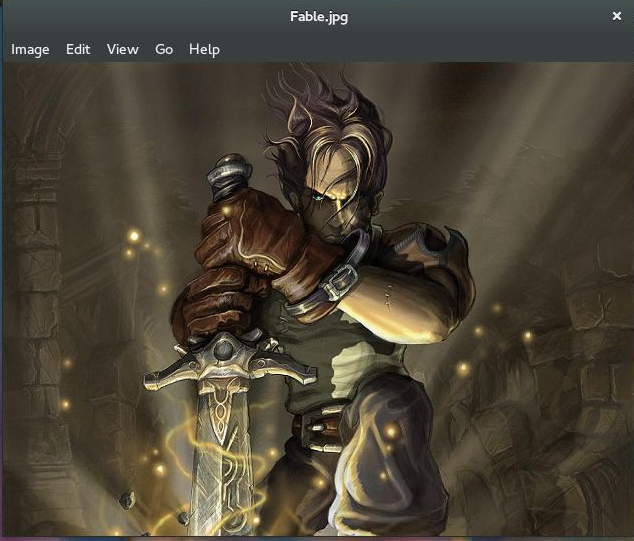

But I have a problem.
I'm still unemployed.

I watched a
lot of anime.

And I played a lot of videogames

Time spent on it will
not return.

A close-up photograph of a brown, feathery seed head, likely from a grass or wildflower, extending from the left side of the frame. The background is a soft, out-of-focus bokeh of green and yellow, suggesting a field of flowers or foliage. The lighting is bright and natural, highlighting the texture of the seed head.

```
import javax.swing.*;

public class Main {
    static BufferedImage image;

    static class ImgFrame extends JFrame {
        public void paint(Graphics g) {
            g.drawImage(image, 0, 0, null);
        }
    }

    public static void main(String[] args) {
        try {
            image = ImageIO.read(new File("java-coffee.jpg"));
        } catch (IOException e) {
        }

        ImgFrame f = new ImgFrame();

        f.addWindowListener(new WindowAdapter(){
            public void windowClosing(WindowEvent e) { System.exit(0); }
        });
        f.setBounds(100,50,500,300);
        f.setTitle("JAVA");
        f.setSize(image.getWidth(null), image.getHeight(null));
        f.setVisible(true);
    }
}
```

So I began to devote more time to programming.
