

Acid rains

When experts talk about acid rain, one is always a very unpleasant incident which happened in the USA. Then, in the town of Wheeling drizzling rain for three days, which was more acid lemon juice.

GREENPEACE

© 1995 Greenpeace

A pair of hands is shown holding a small, transparent globe. Inside the globe, a small green plant with several leaves is growing out of a layer of brown soil. The background is a bright, white, slightly hazy sky. The overall image conveys a message of environmental stewardship and care for the planet.

Let's save the
planet together!
