

Arias of Law Practice

Laws protect, provide control, and define the rights and obligations and set principles of lawful behavior.

Laws include certain rules and regulations, statutes, procedures and orders so that any activity is governed by an appropriate legislation. The areas of law practice in which lawyers specialize are numerous; some are included into large bodies of laws, such as Civil Law, Tort Law or Criminal Law. Some refer to definite spheres of economy, business, human relations etc.

Administrative Law	deals with rules and regulations & orders and decisions created by administrative agencies of government
Computer & Technology Law	focuses on the regulation of scientific technology involving the production or use of electronic devices & computers
Constitutional Law	relates to the protection of rights provided by constitution
Contract Law	relates to rules and regulations of contractual relations setting the rights and obligations of the parties
Criminal law	includes classification of crimes, responsibility for criminal offence, trial process and court procedures of setting punishment for criminal act

Family Law	deals with the rules that guard certain family relations and regulation of adoption, support and divorce
International Law	is a group of laws, rules, or principles that are based on custom, treaties, or legislation and that control or affect the duties and rights of sovereign nations in relation to each other
Employment (Labour) Law	sets control of working conditions, deals with rules and regulations of labour and employment relations
Tax Law and Taxation	concerns tax matters and tax responsibilities
