

ENGINEER

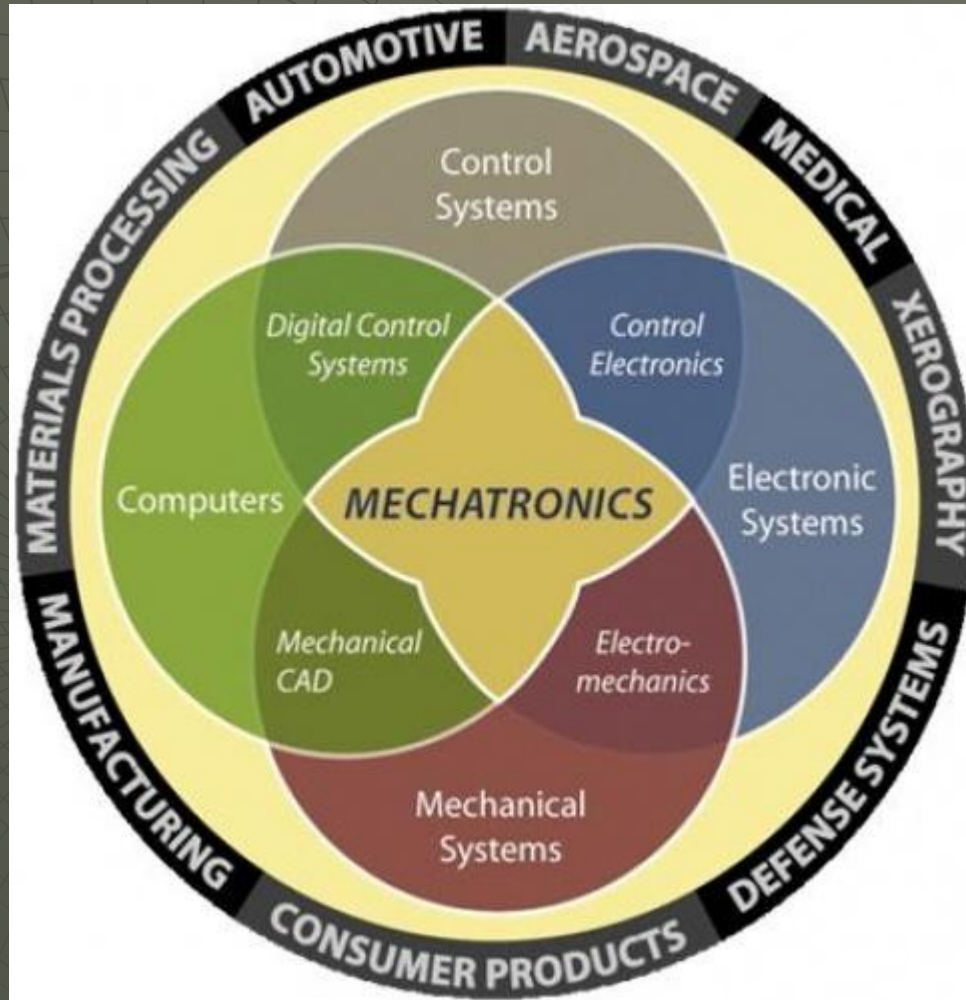

A faint, light gray background graphic. It features a large circular grid, similar to a polar coordinate system or a compass rose, with concentric circles and radial lines. Overlaid on this grid is a drawing of a compass, with its legs spread out and its point resting on the grid. The entire graphic is rendered in a light gray tone against a dark gray background.

Molnar Misha
Form 8-A
School N5
Teacher:
Savko N. G.

- ◆ Engineer-the person ,who makes plans of buildings, mechanisms, bridges.

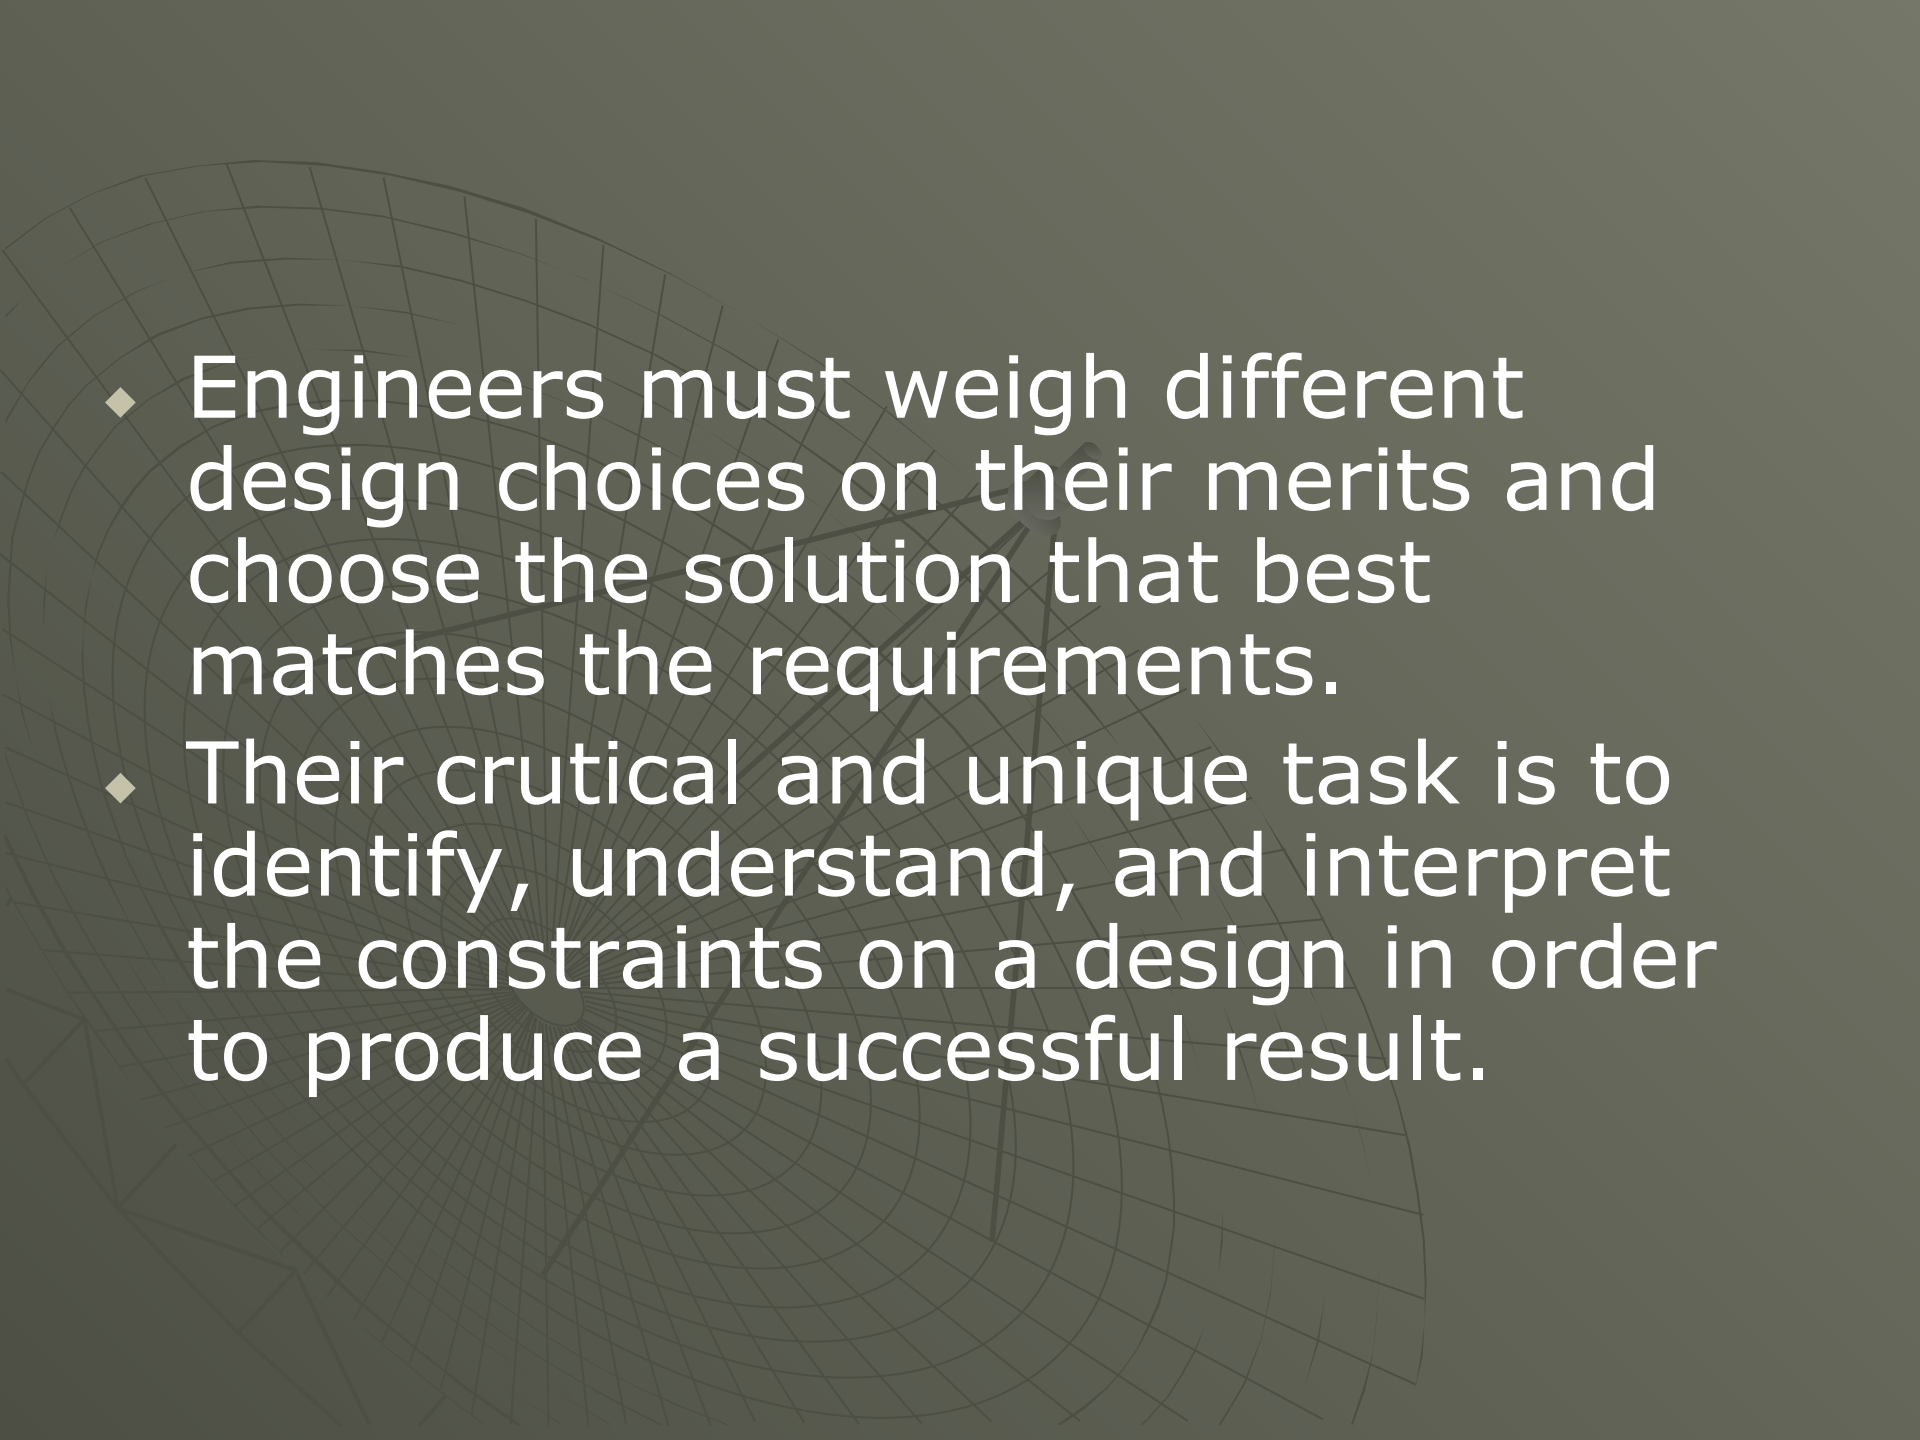

- ◆ Engineers are divided into mechanical engineer, design- engineer and power-engineer.

- ◆ Engineer must be creative, hard-working, self-motivated.
- ◆ He must know mathematics, physics.
- ◆ He must have engineering degree.

- 
- ◆ Engineers must weigh different design choices on their merits and choose the solution that best matches the requirements.
 - ◆ Their critical and unique task is to identify, understand, and interpret the constraints on a design in order to produce a successful result.

Famous engineers are

- ◆ Igor Sikorsky, James Watt, Leonardo da Vinci, John Nash.
