

ENGINEER

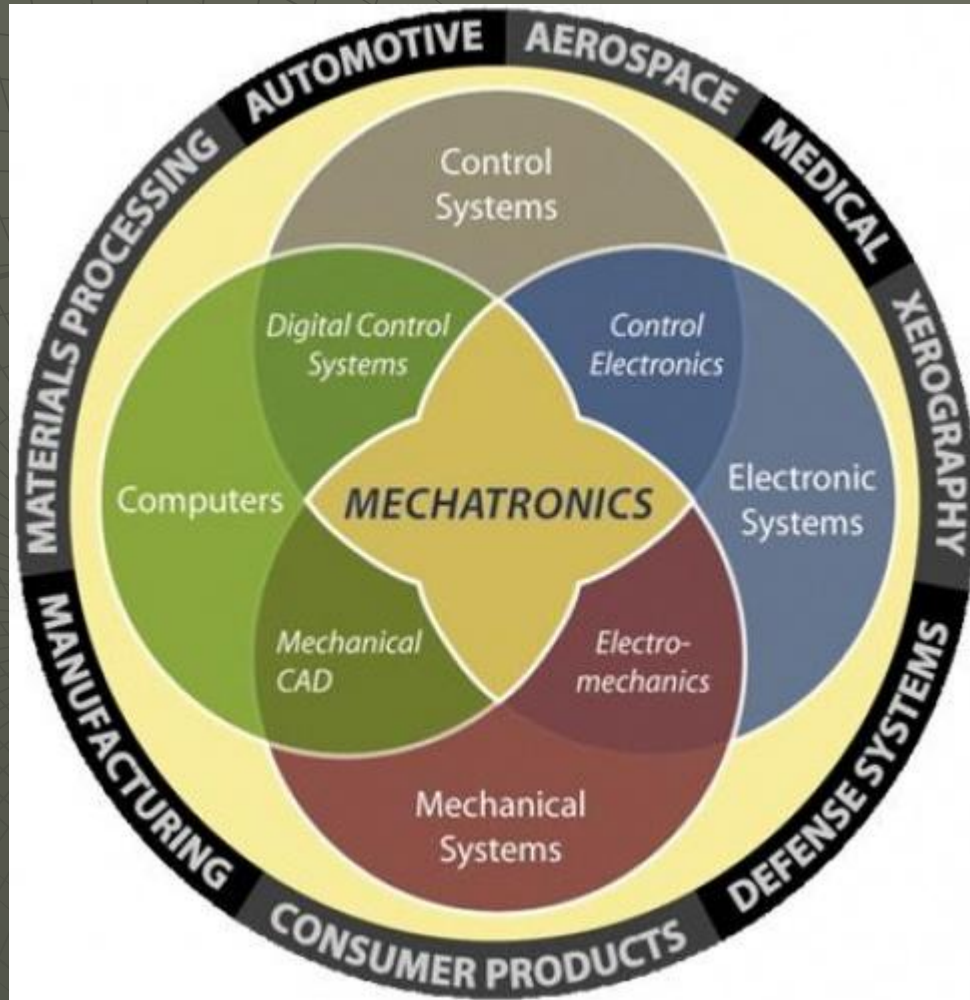

A technical drawing of a compass is centered on a grid background. The grid consists of concentric circles and radial lines, resembling a polar coordinate system. The compass is shown in a perspective view, with its two legs and the central pivot point clearly visible. The drawing is rendered in a light gray color against a dark gray background.

Molnar Misha
Form 8-A
School N5
Teacher:
Savko N. G.

- ◆ Engineer-the person ,who makes plans of buildings, mechanisms, bridges.

- ◆ Engineers are divided into mechanical engineer, design- engineer and power-engineer.

- ◆ Engineer must be creative, hard-working, self-motivated.
- ◆ He must know mathematics, physics.
- ◆ He must have engineering degree.

- 
- ◆ Engineers must weigh different design choices on their merits and choose the solution that best matches the requirements.
 - ◆ Their crucial and unique task is to identify, understand, and interpret the constraints on a design in order to produce a successful result.

Famous engineers are

- ◆ Igor Sikorsky, James Watt, Leonardo da Vinci, John Nash.
