

My summer holidays

My summer holidays was very interested. In June, I had a rest with my parents in the our country house. I worked in the our garden and helped my parents. Then my relatives and friends came to our house and we spend good time.

- In the next month I with my family arrived to Abkhazia. We visited a lot of attractions. For example: lake Riza, Seaside Park in Gagra and many waterfalls. There are I got a lot of good and bad impressions. On the second day my family including me poisoned poor quality water.

Lake Riza

- Exceptionally picturesque lake made him one of the main tourist attractions of Abkhazia. There are summer residence of Stalin and the adjacent dacha Brezhnev on the shore of the lake.

Seaside Park in Gagra

- One of the entrances to the park is decorated with the symbol of the city - the famous colonnade. Park founded the Prince of Oldenburg in 1903. There were planted palms, agaves and many conifers and citrus trees. Park is decorated ponds and sculptures.

Waterfalls

- Abkhazia is famous for its waterfalls, which are amazing creations and a symbol of relentless forward motion. Waterfalls are fascinating. The spectacle of falling water and crashing in a cloud of millions spray remembered forever.

Dancing camp

- In August I was in the dancing camp. There are I leaning to dance. We have some trainings every day. And in between workouts I hanging out with my friend.

The End
