My summer holidays

Introduction:

After my hard and busy school year my summer holidays began. Some people claim that spending summer holidays in the country is very useful for children's health, far away from noise and fuss of big cities while others argue that it is better to save some money and to go to abroad. However, we live in XXI century with developed high-tech technology. So, it would be better to spend holidays abroad. I fully agree with kind of opinion. I would like to explain my point of view on it and **describe** my holidays.

My summer holidays

Main part:

1 passage – one opinion (yours)

Going abroad in my opinion is very useful and exciting. It is popularly believed that going abroad is very expensive. I do not think so.

I **was looking forward to** visiting Great Britain. So, I had to finish school year very well in order to go abroad as a bonus. There were different kinds of sightseeing and entertainments there **to describe**. I was **good at** swimming but **bad at** baseball. It was very useful experience for us, because we had to get up very early, to study English lessons and in the afternoon we had a lot of activities. The lessons were **amazing**. Most of us had bad **handwriting** but it didn't matter because we speak in English, **answer** the questions best of all and we **were proud of it**. Many people are convinced that it is unsafe to travel by plane and stay in foreign country with unknown people. To my mind, it is not true.

For example, our cottage was **next to** Italian students. In our cottage we had a nice **carpet** and soft **pillows**. During my staying in Laughborough I made new friends from 7 countries and **different** nationalities, knew many useful things. For example, if somebody **was absent** at the lesson or something **was wrong with** some of students we altogether help each other at once. I **suppose**, it is very good. I wanted to tell **briefly** my staying in England but I can't because there were so many events. We **travelled** in 8 cities – Nottingham, Cambridge, Coventry and many others. What about the weather it was always raining and somewhere it was **thunder** and the roads were **muddy**.

My summer holidays

2 passage – 2 opinions

Some people think that if you are abroad it is very expensive to get in touch with your relatives and friends who stayed in your Motherland. I cannot agree with this statement because everybody has any kind of gadgets. It is so simple to type a message by using internet and What'sApp.

There should not be any **fear** because nowadays every child is very **smart** and can use all the possibilities of high-tech technologies. I consider, every kid should be **brought up** open-minded, **clever** and **brave**.

Conclusion:

There are different points of view on this problem. I think that all of them are right because every person has his own opinion and should be respected. As for me, I believe that in order to get a good education and to have a high salary everyone should think about his future in advance.

Moreover, every teenager **is eager to** become a **wealthy** person and to **reach** his goal. Nowadays, I am **convinced** everybody can **travel** just want it. It's up to you! So, I was glad to meet my school friends and teachers now. I was very happy to return home and to spend several days in my summer cottage.
