

Extermination of fauna by
human hands

Poaching in Kazakhstan

- **20 years ago in Kazakhstan, there were about 362 species of animals, now it's reduced to 257**

- Now people started to hunt for fun and for sale

- *For example, 20 years ago in Kazakhstan, there were 78 thousand heads of saiga*
- *now it has decreased by 35 thousand*

- 
- The image shows two ram skulls with long, spiraling horns lying on the ground in a grassy field. The horns are light brown and have a distinct spiral pattern. The skulls are positioned horizontally, with one in the upper half and one in the lower half of the frame. The background is a soft-focus field of green grass and some dry vegetation. Overlaid on the image is a white text box with a black border containing a single bullet point.
- **people don't have to worry about what we leave to our child's, don't think about that's is too one of the treasure of Kazakhstan**

- because of our cruelty, we do not see how our
- wildlife is dying

- we need to think about it,
- because without them our world is not full

A photograph of a white goat with red, spiraling horns standing in a snowy field. A hand-drawn black speech bubble is positioned over the goat's head, containing the text "I want to live".

I want to live

copypast.

- Just thinking about
