Product Innovation

- **Samsung's product range in India included TVs, audio and video products, information technology products, mobile phones and home appliances.**

Pricing

- Pricing also seemed to have played a significant role in Samsung's success. Samsung sales similar product at lower price than that of apple and Sony.

Distribution

- **Along with the launch of new products, Samsung also consolidated its distribution system. Samsung had 18 state- dealers and a direct interface.**

Advertising and Sales Promotion

- In 1995, when Samsung entered India, it realized that Indian consumers were not familiar with the company. So, in order to establish itself in the Indian consumers' mind, Samsung launched corporate advertisements highlighting its technologically superior goods.
