- *A family is a little world. It has its own territory which is a house or a flat. It has its own population. These are the family members. They speak their own language.*

- If people are kind to each other, they have good relationships, and the family is friendly. All the families have their own rules. The most important rule is to respect each other. Family members must share their household chores, then they will have more free time to spend together.*

- *Our aunts, uncles, nieces, nephews and cousins are our relatives. We meet at the weekends and for holiday celebrations. This helps us to keep the family traditions with great honour. We love each other and never argue. We help and support each other. This helps our family to be a unit, a little world created by love.*

- *Everyone in our family is unique. We look alike in appearance, but we are different in our characters, hobbies and interests.*

- *A family is an essential part of our society and I think everyone wants to have a happy family. Firstly, I believe that a happy family should share with hopes and dreams, not just property. I think it's great.*

- *Secondly, understanding between the members of the family is very important in family relationship. But in my opinion, love and trust are more important for a happy family than other values, because without love happiness is impossible.*

- *If you love each other, then all obstacles will be overcome, and all gentle words will be found, and this cruel world will turn to you with a kind smile.*

- *If there is right in the soul,  
There is beauty in the person.  
If there is beauty in the person,  
There will be harmony in the home,  
If there is harmony in the home,  
There will be order in the nation.  
If there is order in the nation,  
There will be peace in the world.*
