

The topic of my presentation:

"Foreign languages in my life"

# Aim

My aim is to show that the foreign language in everyday life is needed, and in some cases required

# Task

- Represent objects in which I have to use foreign languages
- I will give examples

# Plan

1. I'll tell you about YouTube
2. I will give examples foreign languages in YouTube
3. Ways of playing the guitar
4. As well as songs in foreign languages

# You Tube

Service that provides video hosting services.

# YouTube

The comments you can communicate with by the same people as we are. They can be from anywhere in the world who speak different languages

**Андрей Соловьев** · 1 месяц назад

David, What with drums???

Ответить · 👍 👎

**David MeShow** · 1 месяц назад

Too lazy to fix a complete drum set in front the green screen ! :D

Ответить · 👍 👎 в ответ на [Андрей Соловьев](#)

# The basic techniques of playing the guitar

- Strumming - the easiest ways of playing harmonies.
- Bend - Increasing pitch by transverse displacement of the string sandwiched
- Slide - The smooth transition from one note to another
- Palm Mute
- etc.

# songs in foreign languages

Friends will be friends  
(Mercury/Deacon)

~~~~~  
(86 - A Kind of Magic)

Another red letter day,  
So the pound has dropped  
and the children are creating,  
The other half run away,  
Taking all the cash  
and leaving you with the lumber,  
Got a pain in the chest,  
Doctors on strike what you need is a rest.

It's not easy love,  
but you've got friends you can trust,  
Friends will be friends,  
when you're in need of love  
they give you care and attention.  
Friends will be friends,  
when you're through with life  
and all hope is lost,  
Hold out your hand cos friends will be friends  
right till the end.

Freddy mercury – Friend will be friends

- First of all, learning a foreign language is examined and the correct pronunciation of words/
- And of course, you start to understand what the song says

# Travel

An integral part of the journey is to communicate with people who speak other languages

- for example you wanted to ask the way to what is the object

# manuals

I know that most people do not read manuals for appliances, but for some it is a necessity is that there is no translation, and have to deal in other languages, so that would be easier to just have to know a foreign language
