the 5 senses

sight

Our eyes let us see things around us.

hearing

We use our ears to hear sounds.

touch

We can feel things with our hands or with other parts of our bodies.

taste

We taste things with our tongue. We can taste lots of different flavours.

smell

We smell things using our nose.

Please, smell the air around you.
What do you smell?
What would you smell in a kitchen?
What would you smell in the forest?
