The day was sunny. I was **on my way home** after a long day at school. I came into a little **store** in front of my house. Then I decided to go to the bank because I needed an **ATM**. I wanted to get some **cash** from my last **pay-check**. On the way back I saw a **coffee place** so I came in to get a coffee. I asked “Can I get a cup of small coffee, please?”, “Of course! Here or **to-go?**” asked the cashier. I said “To-go, please”. I paid \$ 5.75 + **tax**. I gave him \$10 so he gave me **a change** back. I saw some **napkins, spoons, knives** and **forks** on the table. I decided that I should take a napkin and a small spoon. There was a sign on the door says “**Watch your steps!**” so I should be careful. I opened my cup and **accidentally spilled** a little bit on the ground because it was too hot.

After that I had to go home because **a couple** days ago my friend inspired me on a **round trip** to Canada. I think it is a great idea and opportunity to meet new people and see a lot of interesting places.

What can you say about these
two guys?
