

London

London is the capital of England and the United Kingdom. It is Britain's largest and most populous metropolitan area.

- London is a leading global city being the world's largest financial centre alongside New York City . and has the largest city GDP in Europe. Central London is home to the headquarters of most of the UK's top 100 listed companies (the FTSE 100) and more than 100 of Europe's 500 largest.

- ❑ London has a diverse range of peoples, cultures and religions, and more than 300 languages are spoken within its boundaries. In July 2007 it had an official population of 7,556,900 within the boundaries of Greater London, making it the most populous municipality in the European Union.

The etymology of London is uncertain. It is an ancient name and can be found in sources from the 2nd century. It is recorded c. 121 as Londinium, which points to Romano-British origins.

□ Within London, both the City of London and the City of Westminster have city status and both the City of London and the remainder of Greater London are the ceremonial counties . ^[80] The current area of Greater London has incorporated areas that were once part of the counties of Middlesex , Kent , Surrey , Essex and Hertfordshire . London's status as the capital of England, and later the United Kingdom, has never been granted or confirmed officially—by statute or in written form.

- ▣ The capital of England was moved to London from Winchester as the Palace of Westminster developed in the 12th and 13th centuries to become the permanent location of the royal court , and thus the political capital of the nation. More recently, Greater London has been defined as a region of England and in this context known as *London* .

- Greater London covers an area of 1,579 square kilometres (610 sq mi), an area which had a population of 7,172,036 in 2001 and a population density of 4,542 people per square kilometre
