**HUSBAND IN £11M DIVORCE TELLS HOW HE KEPT SECOND FAMILY**

**EXCLUSIVE**  
How he kept his second family

LORD ALTON OF Liverpool has revealed in a scathing divorce settlement that he kept a second family while his wife was still alive. The 72-year-old peer admitted to having a long-term affair with a woman who is now his second wife. The divorce settlement, which is worth £11 million, includes a clause that prevents Alton from revealing the details of his private life. The court has ordered Alton to pay his ex-wife £11 million in damages for her loss of consortium. The settlement also includes a clause that prevents Alton from revealing the details of his private life.

**Brown joins ministers in admitting we got it wrong**

Mr Brown and his ministers have admitted that they were wrong about the Iraq war. The Prime Minister said that the intelligence that led to the invasion of Iraq was flawed. He said that the government had been misled by the intelligence agencies. The Prime Minister also said that the government had been wrong to go to war with Iraq. He said that the war had been a mistake and that the government should have listened to the dissenting voices within the government.

## OFFICIALS CONFIRM FIRST LOCAL CASE OF SWINE FLU!

**By Kayla Williams**

Officials in the region of St. Lucia have already confirmed over 20 cases of swine flu. Jamaica and Barbados have 19 and 18 reported cases, respectively, according to the World Health Organization, which is warning of a possible pandemic. The first case in St. Lucia was confirmed on Monday, June 29, at the St. Lucia Health Services, when a 45-year-old man was diagnosed with the virus. The patient had returned from a trip to the United States.

On Monday an early morning press conference by the chief medical officer, Dr. George Frederick, revealed the first case of swine flu in St. Lucia. Dr. Frederick said that the patient had returned from a trip to the United States. He said that the patient had been in contact with someone who had the virus. The patient was diagnosed with the virus on Monday, June 29, at the St. Lucia Health Services. The patient was the first case of swine flu in St. Lucia.

## Excitement rockets after otherworldly sighting

**HALO EFFECT:** This image was caused by a space rocket that performed tests after it had released its satellite.

**PICTURE:** MITCHELL KINGS/LANG CANAVAS PHOTOGRAPHY

IT CAME from outer space, a strange object blazing across the Johannesburg sky that is what it seemed - a UFO - and with it on Sunday night came a flood of calls to observatories and Talk Radio 702.

Witnesses reported seeing a bright pulsating light with a halo and a second object that followed it.

But by yesterday, astronomers knew it had been caused by a US space rocket performing tests after it had released its satellite payload.

**SHAUN MILLIE**

The object was seen over South Africa on Sunday.

"Calls just began flooding in," said Melony Spark, a student astronomer in the Western Cape.

Claire Flanagan, of the Johannesburg Planetarium, said: "One man said he was jacked-bumping and had watched the object through the scope of his rifle."

Flanagan received numerous calls not only from Joburg, but from Klerkskop, Rustenburg and the Free State too.

Spark was able to track the object's flight path. Soon it was spotted in Italy. "It took half an hour to log it across Africa," she said.

On Sunday evening, a rocket carrying a US military weather satellite blasted off from Vandenberg Air Force Base in California.

The objects that witnesses saw are believed to have been the rocket and a satellite. Once the rocket was over Europe, it dumped fuel and left Earth's orbit around Greenland.

Europeans also noticed the object and posted footage on the internet.
