- Every year on March, 8th I marked with the family. But this year I didn't manage to go home. This year I marked the international women's day with the friends.

- At first I with the подругой Sardanoj have sat at my home. Then we have together gone to our friends. They have invited all close friends. We sat and communicated.
- I with the friends have gone to club.

- We have presented each other gifts. All were very happy and joyful
