

# My Fair Lady

*The open gates to  
better English*

**The science of  
speech is the  
one of the  
most  
important  
sciences in  
our world.**

A young girl with dark hair, wearing a light blue sweater, is shown in profile, blowing on a dandelion seed head. She is holding the stem of the dandelion with her right hand. The background is a lush green field with many other dandelions, some of which are in bloom and others are seed heads. The sky is a clear, bright blue. The overall scene is peaceful and evokes a sense of childhood and nature.

What a pity  
when man  
can not speak  
as beautifully  
as think!

**A person who utters such disgusting and depressing noise has no right to be anywhere, no right to live. Remember that you are a human being with a soul and the divine gift of articulate speech.**

There are  
lots of  
difficulties  
in learning  
of speaking  
well , but it  
is worth it.

The ability of speaking correctly can influence on your life in a very good way.

Work on yourself and you  
will get perfect results!

**It's up to you to do your choice.**

**Let's do  
our world  
and life  
better  
with good  
knowing  
of  
language  
and  
culture!**
