

The future of Shopping. Money.

- **The intelligent dressing room** in the store of the future will be able to scan your body measurements and reproduce a picture of you wearing the chosen clothing item.

I really hope the store of the future is not too far away in the future, because this concept would actually make shopping for clothes a lot easier

In the future all people will turn to
online shopping

Reasons Why Shopping Online Beats Regular Shopping!

- **1: You Save on Gas and Time .**
- **2: In a Store, You Can't Read Other People's Reviews of Products.**
- **3:It saves a lot of time.**
- **4:you don't need to tolerate crowding:
Screaming Babies. Annoying People. Bad smells.**

In the future paper money will completely disappear.

Electronic transaction will become common.

- No one will carry wallets any more. All functionality of a wallet will embed in a mobile device.

A blue neon sign with the words "THE END" in a stylized, blocky font. The sign is mounted on a dark background and is illuminated from within, creating a bright blue glow. The letters are white with a blue outline, and the overall effect is that of a classic cinema sign.

THE END
