

# My favorite musik

9 класс

- ▶ **I** love music. I suppose people can't live without some music. This is the first thing I do in the morning – switch on my radio.
- ▶ During our century it's possible to listen to the music everywhere: streets, shops, TV, radio, cars, parks – there's no any place where you can hide. I think it's really doesn't matter what kind of music you prefer: rock, pop, classical or maybe jazz. A lot of people are fond of music. They buy CD's, go to the concerts, visit Concert Halls and Opera Theatres.
- ▶ I enjoy music because it reflects my moods and emotions. Very often when I'm blue, I play my favorite merry songs and feel much better.
- ▶ Sometimes I attend music halls and the concerts, when best groups and singers are in our city. I like watching music programs on TV. It's interesting for me to get some new information about popular bands and singers I like.

- ▶ One wall of my room is covered with different posters of «Carcass», «Macabre», «Cannibal Corpse», «Phlebotomized», «Carbonized», «My Dying Bride» and others.
- ▶ Some people go to music schools, they play different musical instruments, sing in the chorus, try to compose music, but actually it's not about me.
- ▶ There are so many talented bands in the world, but unfortunately nobody knows about them. But of course everybody knows about popular pop singers and groups with good producers. And this situation makes me sad.
