

My friends

No doubt, everyone dreams of having a true and faithful friend but not all of us are lucky enough to find one.

Frankly speaking, I'm rather sociable, that's why I have many friends. As for me I'm happy with my friends. Firstly, I don't have "fair weather" friends.

Secondly, all my friends are very pleasant people, and I'm never bored with them.

I have a very good friend. Friends are very important in our life. I think one cannot live without friends. The most important thing for being good friends, to my mind, is to be ready to help one another in any situation, nevertheless how difficult it is, to support one another and to solve all the problems together. And never mind, that the friends may have different interests and hobbies, different likes and dislikes. They say that the friend in need is a friend indeed. I think it is really so.

My friend and I always do our best to help one another. We discuss all our troubles and try to find the best decision in any situation. My friend is a very good, kind and clever boy. We often spend our free time together.

He is usually open-minded and interested in other people. More than that, he is considerate, supportive and responsible. I can always turn to him whenever I'm in trouble, and she never fails to help. In general he is loyal, trustworthy, tactful and great at keeping secrets.

**My friend is going to become a doctor.
Our future professions are different
and the subjects we have to study are
different too, but we like to work
together and to help one another in
our study.**

When we have some free time, we go for walks, read and discuss books, watch films or play computer games. Playing computer games is our hobby. I think he is a true friend. Our friendship is very dear to me and I try to do my best to be a good friend too.
