

My residence

I live in Russia in the city of Izhevsk.

Izhevsk — a city (c
1918) in Russia,
capital of the
Udmurt Republic.
With 1984 for
1987 was called
Ustinov. Enters
into the twenty
of the largest
cities of the
country. The city
is located on the
river Izh.

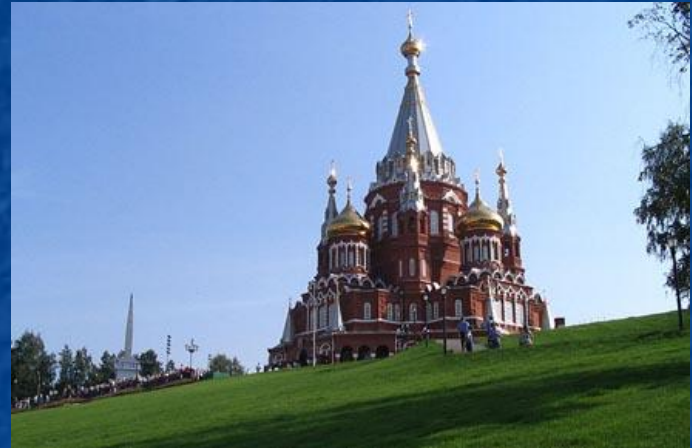

Most of all amaze
with the
magnificence
surprising and
magnificent park
gardens of my
city. Their
originality and a
unique
arrangement.

**In our city there are many monuments,
museums, theaters, churches.**

The most favorite place is the quay.
Our city always pure, well-groomed, it
is decorated by many beds from colors.

I very much like
to visit cinemas
of our city
where show
many
interesting
films.

In the city center the big area, with a magnificent arcade from fountains and sculptures is located. At week-days here it is silent and it is not populous, but on holidays or days off it is possible to see a lot of skillful masters of artists and potters which suggest to buy their works. In such days the central part of a city turns to huge showroom, a real paradise for judges of creativity.

I live in October area on Charles
Marx's street in the house № 446.

I very much love our city. Also I want, that it prospered.
