

My splendid friend.

Life without friendship is like the sky without sun.

People cant live without friends. Friendship is one of the most important things in their life. Real friends always help each other and never let each down.

001

I have got a lot of friends. They are my neighbors, classmates, pen friends. But the best friend is my classmate Olga Fedotova. She is tall and nice. Her hair is long and thick. Its very beautiful. Her eyes are brown and clever.

Olya is very curious she is interested in everything. This unusual girl has a lot of hobbies. First of all she likes adventures. She travels a lot. Every year Olga goes to the south. She spends her time brilliantly there. And last year she went to Italy. It was fan. Olya told me a lot about this wonderful country.

Then my friend likes reading. She has a lot of different books at home and she READS them! That's why she knows a lot. Its very interesting to talk with her. Olya also plays the guitar.

But her greatest love is cats. She likes all cats in the world. Olya is sorry for all homeless animals. She wants to have a dog or cat and I hope her dream will realize.

All in all Olga is the best girl in the world. We go out together, discuss books, talk different problems through share secrets with each other. My friend never lets me down and always stands by me.

BOO

*I am glad to have such a great friend. Our friendship is like the sky with
the sun.*

Be happy, Olga!

HAPPY
