About Myself

First of all let me introduce myself. My name is Kirill. I was born on June 15, 1993 in Orenburg. I live in Orenburg now. I'm The first-year student of Orenburg State University. I am always very busy, but when I am free I like to sleep or listen to music.

In three year I shall finish my University and I will enter in adult life.

My family

My family is not very large, just a typical family. I have a father, a mother, and elder sister.

My father is an engineer. But he is not working by this profession, because it is not favorably. Now he is a director of the firm.

My mother is a teacher in secondary school. She likes this profession.

My elder sister is a psychologist.

Orenburg State University

A nighttime photograph of a large, ornate building, likely Orenburg State University, illuminated by warm lights. The building features a central tower with a golden spire. In the background, city lights and a road with light trails from vehicles are visible under a dark blue sky.

Orenburg State University is the largest institute of higher education in the Orenburg region. It is a leading training, research and cultural center carrying out advanced educational services at all levels.

To provide the best education, Orenburg State University (OSU) recruits highly skilled professionals. More than 160 staff members hold Doctor of Science degrees and more than 800 Candidate of Science degrees.

The OSU student body is composed of more than 43,000 students! Thus, the university provides professional training with a strong focus on scientific research and up-to-date technology usage information. Students have at their disposal an Internet Center equipped with high speed transmission links, modern laboratories, and a scientific library that serves more than 27,000 visitors.

Orenburg

Orenburg is a city on the Ural River and the administrative center of Orenburg Oblast, Russia. Orenburg is a regional center of education and has a number of cultural institutions and museums. Mountain and river tourism is developed in the region. There are a number of fast mountain rivers and rocks in pleated spurs of the southern edge of the Urals range, popular with tourists.

The city is famous for its down Orenburg shawls. The thinnest lacy design, knitted by hand shawls and cobweb-like kerchiefs, is not only warm, but also is used for decorative purposes. A famous boulevard on the embankment of the Ural River is one of the most notable places in Orenburg.
