

HOW TO SAVE OUR NATURE IN UKRAINE?

Dzyubinsky Maksym

A photograph of a park scene. In the foreground, a large pile of discarded trash, including plastic bags, bottles, and food wrappers, is scattered on the grass near the base of a tree. In the middle ground, a person is lying face down on a towel on the lawn, sunbathing. In the background, a few people are sitting on a bench under a tree. The overall scene suggests a lack of proper waste disposal in a public space.

Clean up after yourselves!

**WHEN YOU THROW WASTE
INTO RIVERS AND LAKES YOU
DO A LOT OF HARM NOT
ONLY YOURSELVES BUT BIRDS
AND ANIMALS!**

Do not cut down forests !

Don't poison the water, air and soil

Save electricity

Air pollution

AIR POLLUTION CAN CAUSE OR MAKE BAD DISEASES. IF I WAS A PRESIDENT, I BROUGHT TO UKRAINE ECO FUEL.

ANOTHER THREAT IS FACTORIES. FACTORIES IS POLLUTION AIR. POLLUTION AIR-DISEASES.
