Translations

- **формой страдательного залога в соответствующем времени:**

Molecules are divided into atoms. - Молекулы делятся на атомы.

- **- возвратной формой глагола (окончания -ся; -сь) в соответствующем времени:**

The experiments were made to confirm the hypothesis. - Опыты проводились для того, чтобы подтвердить гипотезу.

Translations

- - неопределенно-личной формой глагола действительного залога:
The experiment was made with great care. - Опыт проводили с большой осторожностью.
- - личной формой глагола (если указано лицо, производящее действие или с помощью чего действие было произведено, т.е. дополнение с предлогом by или with):
These papers were written by the same author. - Эти работы писал тот же автор.

Subject becomes an object

- В дательном падеже

We were informed about the results of the last experiment. - Нам сообщили о результатах последнего опыта.

- В винительном падеже

His theory was opposed by many scientists. - Многие ученые были против его теории.

Verb + preposition

- *These data can be relied on.* - На эти данные можно положиться.
