

SCHOOL OF MY DREAMS

- Every school is the best and excellent.
- School of my dreams I imagine that it is near my house.
- This school is located close to the nature reserve.

I want to have beds in which to grow small trees and flowers.

I imagine students who trample paths from paternal threshold to school, which for them also became a home.

In my school should be pool, fitness room and sport club. To the boys were strong, and girls beautiful and slender.

At school I want to have learned little and big break. I want to learn not all programmatic objects, but only those that are required for entry into university.

I want a dining room with ice cream and sweets. Also want to have a tasty and healthy food.

The school of my dreams to be a lot of clubs and societies, where students with teachers engaged in interesting research. I want to have sports club, language club, dance club, vocal club, art club and other.

I would like to be happy at the school.

I want to have many friends, and have relations friendly with the teacher.
