# I love my class!

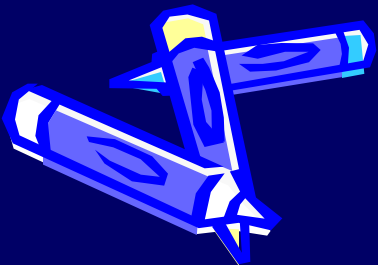

# The poem is a teacher:

- My class - boys and girls,  
• So different are:  
• Some paint, like books,  
• Other computer still beckons!
- I hasten to them, not only to  
• Them as a teacher to teach,  
• I have fun with them, why,  
• My class can not be bored!
- Fun hour and time of the case:  
• My class strives for success,  
• Talent, I confess boldly,  
• Every child is endowed.

• They, of course, restless,  
But I know - no need to  
shout.  
It was possible in  
affectionate conversation  
About the behavior say.

I went into a class of its  
own, smiling  
And I see the sparkle back  
eyes.  
I love them, they try  
After my class - the best  
class.
