Terrible Figures of Child Suicides

- Nearly 85% of teenagers at least once in life thought about suicide.
 - The peak of suicides accounted for late teens - 14-16 years.
 - In 80% of cases, the cause of child suicide - relationships with relatives.
- According to statistics, in Ukraine takes place in the year of children's 34.5 suicides per 100 thousand, in the world young people aged 15-19 make 10 suicides per 100 thousand population, and, according to the World Health Organization, the indicator 20 is critical.

- Boys commit suicide 4-5 times more often girls, but girls, in turn, try to commit a suicide three times more than boys.
- 70% of suicides are committed by mentally healthy children.
- 80% of child suicides is poisoning.
- Among children, 60% of those, who commit suicide are the children from the "normal" full families.
- Children resort to suicide due to family reasons in 46.9% of cases due to conflicts with peers and relatives - in 13.6% of cases.

Children's Labour

- June 12 is the World Day Against Child Labour.
- Currently, about 215 million children are forced to work to survive, and more than half of them are victims of the worst forms of child labor.
- About 5 million children are victims of commercial sexual exploitation.
- Most severely child labor is used in the east of Ukraine, Donetsk and Luhansk regions, where the main income of the population is the coal industry.

Abortion

- Ukraine has the biggest number of abortions as to compare with any EU country.
- The Verkhovna Rada of Ukraine registered a bill banning abortions for women voluntarily.
- The document proposes to allow abortions only for medical and social reasons.

Abortion rate in Ukraine

The head of Ukraine's Greek Catholic Church claims that 40 million unborn children were aborted since national independence in 1991. However, official statistics show 1 million abortions in 1991, declining to 156,000 last year.

Disability

- An International Labour Organization report found that unemployment rates for the disabled rose sharply in Eastern Europe in the 1990s due to recession and economic restructuring.
- Discrimination is a problem.
- In the Soviet era, disabled people were kept in institutions.

- The few disabled people who do manage to get a job work hard to prove themselves.
- Many people with disability, think that they must sit in the flat, close the door.

- According to the Ministry of Statistics of the country, we have two million two hundred thousand people with disabilities.
- Of them:
 - 1 group - 292,000
 - the second - 1.3 million
 - the third - half a million
 - the total number of children with disabilities is 115 thousand.
