To my opinion, the best work is the

work of a teacher.

- Of all the works that are in the world I would like to highlight the work of the teacher! The teacher is the most rewarding profession. In school, everyone comes very small, frail little man and the wall of the school leaves already grown up to get a certain person's knowledge

- With the word teacher, everyone has their association. Every man remembers his first teacher! It was in school instilled a love for the motherland, nature, communication, and friendship in a group members.

- Children in school are taught to take an active part in the life of the school and class. Play sports, KVN. Each year the child grows and develops as a person

- The teacher teaches the child to self-knowledge of the world and themselves, helping to grow spiritually and physically. Teaches at a certain time to take the right decisions.

That school gives the student a lot of knowledge that a child is an adult life. It is the teacher learn good and evil, learn to set goals to win and win. Each teacher sees the fruits of his labor in the disciples, seeing them grow and develop, learn something new share with them their experiences. If a student reaches of any vertices, this is the first obvious
