- According to the magazine “Forbes” the best profession *is Actuary – expert.* He involved calculating damages and compensation for the insurance and social companies.
It’s not glamour profession guarantee minimal stress , good money and workplaces.

- For me, the best profession is dog trainer . Of course it's very dangerous profession , because dog can bite trainer. Dog trainer it's no mean to teach dog “sit”, “lie” ... it's mean educate dog, know psyche dog ,and sometimes help dog..

- Dog handler - a specialist in raising and breeding dogs.
 - And ,of course , you must know all about dog and love them.
- Some trainer teach dog for blind people,
some for police.
