The mass media play an important part in our lives. Newspapers, radio and especially TV inform us of what is going on in this world and give us wonderful possibilities for education and entertainment. They also influence the way we see the world and shape our views.

# Newspapers

Some people think that the only way to be in the know of everything is to read newspapers and magazines.

Newspapers are packed with the latest news, information, fashion and facts. They cater to a variety of political views, interests and levels of education.

There are two main types of newspapers in Great Britain: the “popular” papers and the “quality” papers.

The popular papers are less in size, with many pictures, big headlines and short articles. They are easy to read. They are such papers as “Daily Express”, “Daily Mirror”, “Daily Star”, “The Sun” and others.

The “quality” papers are for more serious readership. These papers are bigger in size, with larger articles and more detailed information. The “quality” papers are – “The Times”, “Daily Telegraph”, “Financial Times” etc.
