

The way I
spend my spare
time

• Unfortunately, I don't have a lot of free time because I am a student. Being a student means having numerous responsibilities. So, when I have some leisure time I always do something what I want to do.

- *First of all, it is necessary to emphasize that I have a lot of friends. Actually, I adore spending some time with them. Usually, we simply go for a walk and our hometown Horodenka is the best place for it.*

- *Secondly, very often we go to the discos which are usually held in our District Palace of Culture. Frankly speaking it is so wonderful to dance and to have a lot of fun with friends there.*

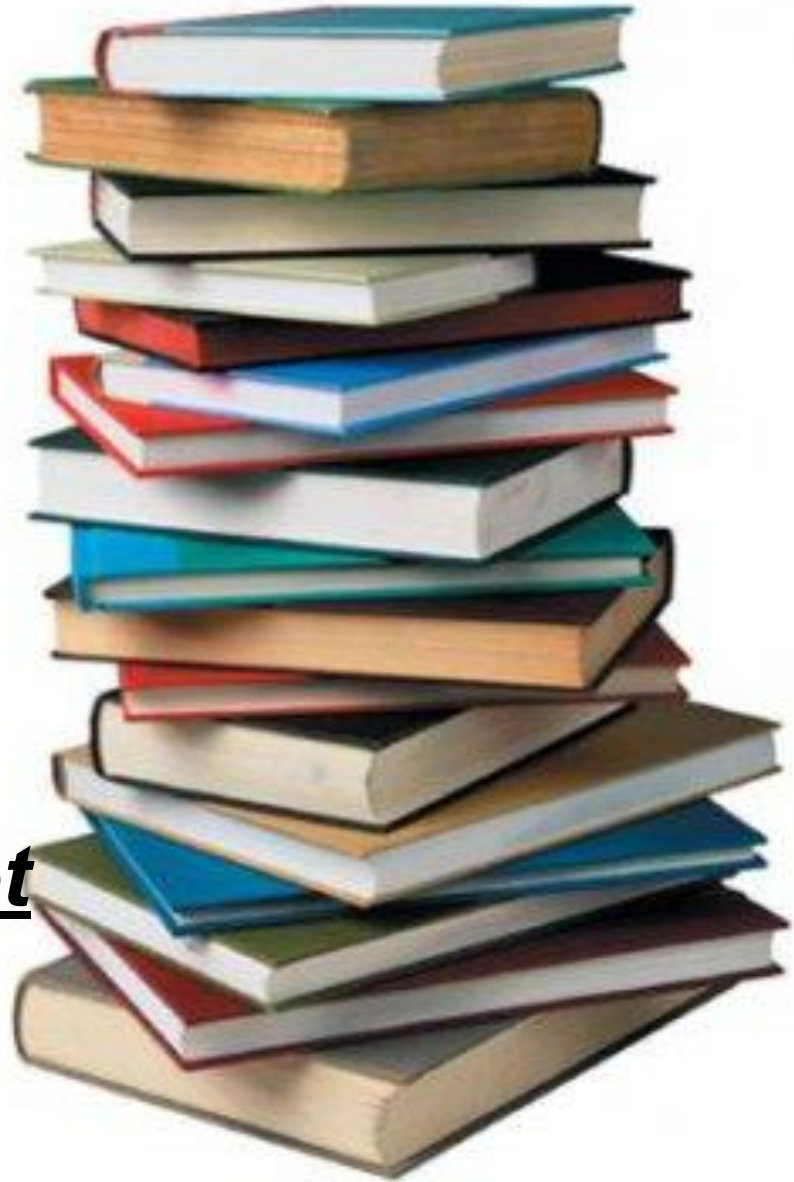

- *I can't but mention, one of the dearest people in my life ,I mean, my girlfriend. We are really happy together.*

- In addition to this, I like playing computer games, searching the web and chatting in some social networking sites like VKONTAKTE.RU and FACEBOOK.

- *Besides, I adore reading books. They take us into the imaginary world of high human emotions, exciting relations and events. I truly believe that computers can not be compared to books.*

- 
- *That is all. I am an ordinary person with usual likes and interests. I think my story tells something about me and you will understand me better due to it.*
