

A rectangular metal plate, possibly brass or aluminum, is mounted on a light-colored wall. The plate features embossed characters in a stylized, possibly Cyrillic or Latin-based script. The characters are arranged in a grid-like pattern, with some characters appearing to be 'M', 'P', 'C', 'E', 'D', 'A', 'R', 'D', 'E', 'S'. The plate is secured by four screws, one in each corner. The background wall is a light, textured surface.

Project objectives

- **Improvement of life conditions in Ivanovo "House of small children" (Дом малютки, OKUZ "House of children specialized", city of Ivanovo, Lubimova st, 11). Chief doctor Kudryashova Irina Lvovna**
- **Providing of medical equipment and normal life conditions for kids and their mother in Oncology department of Regional hospital in Vladimir city (city of Vladimir, Dobroselskaya st. 3) Chief of oncology department Malinkina Natalia Vadimovna**

Current situation

- Ivanovo's "House of small children" designed for 126 kids and have 121 kids from birth till 4 years old at the moment. Each baby has perinatal injury of central nerve system. Some of the kids has tougher injuries and diseases.
There is essential need of renovation of the several rooms occupied by smallest babies (there are 12th of them right now): main hall, toilet, eating room and playing room needs to be renovated.
- Pediatric department in Vladimir's hospital has two infusomat at the moments – this as equipments for precise control of introduction speed and quantity of oncology medicine and parenteral nutrition. This equipment exclude any possibility of wrong infusion and vessels overload. They do have automatic Turn offs and multifunctional timers.
Hospital need at least 2 infuzomats more. Each infuzomat cost 120000 RUB.
- The children in the hospital accompanied with their mothers during all the treatment period. And there are no any infrastructure for that heroic women who stays there up to half a year. We want to create special room for their rest and housekeeping purposes. Also we want to hire psychologist for kids and mothers to help them on regular base during treatment and rehabilitation
