

Theme of the project:
"Volcanoes"

Prepared:
Sofia Kozariz

- Volcano eruption – the situation when steam or lava escapes from a volcano.
- A volcano – is a mountain with a large hole at the top, through which hot rocks and ash sometimes rise into the air from inside the Earth and boiling lava roars down the mountain.

- A volcano ruins buildings , and causes great troubles to the nature and everything living.
- It's like shaking a bottle of a carbonated soda and then opening the lid.

The largest active volcano

Part of the world	Name	Arrangement	Height, m
Europe	<i>Aetna</i>	<i>Sicily Island</i>	<i>3340</i>
	<i>Hvannadalsh-nukur</i>	<i>Island Iceland</i>	<i>2119</i>
	<i>Hecla</i>	<i>Island Iceland</i>	<i>1491</i>
	<i>Vesuvius</i>	<i>Italy</i>	<i>1277</i>
Asia	<i>Demavend</i>	<i>Iran</i>	<i>5604</i>
	<i>Kluchevskoy</i>	<i>Kamchatka Peninsula</i>	<i>4750</i>
	<i>Kerinci</i>	<i>Sumatra Island</i>	<i>3805</i>
	<i>Fujiyama</i>	<i>Honshu Island</i>	<i>3776</i>

The largest active volcano

Part of the world	Name	Arrangement	Height , m
Africa	<i>Meru</i>	<i>Tanzania</i>	<i>4567</i>
	<i>Karisimbi</i>	<i>Rwanda</i>	<i>4507</i>
	<i>Phaco</i>	<i>Cameroon</i>	<i>4070</i>
	<i>Teide</i>	<i>Canary Islands</i>	<i>3718</i>
North America	<i>Orizaba</i>	<i>Mexico</i>	<i>5700</i>
	<i>Popocatepetl</i>	<i>Mexico</i>	<i>5452</i>
	<i>Sanford</i>	<i>Alaska</i>	<i>4939</i>
Antarctica	<i>Erebus</i>	<i>Ross Island</i>	<i>3794</i>

The largest active volcano

Part of the world	Name	Arrangement	Height, m
South America	<i>Lyulyaylyako</i>	<i>Chili - Argentina</i>	<i>6723</i>
	<i>San Pedro</i>	<i>Chili</i>	<i>6154</i>
	<i>Antofalya</i>	<i>Argentina</i>	<i>6100</i>
Australia and Oceania	<i>Мауна-Лоа</i>	<i>Hawaii</i>	<i>4170</i>
	<i>Ruapehu</i>	<i>New Zealand</i>	<i>2796</i>
	<i>Ulavun</i>	<i>New Britain Island</i>	<i>2300</i>
