Air/water/land pollution/contamination

Natural disasters/ man-made disasters

Animal extinction

Environmentally friendly

Plant greenery

Industrial/nuclear waste

Preserve/save/protect nature

Child labor

Terrorism

Deforestation

Oil spills

Overfishing

Greenhouse effect/global warming

Exhaust fumes

Breathing system problems

Natural resources are used more than needed

Ice caps melting

Drought

Climate changes

Rainforests

REDUCE

Solar energy

Civil wars

REUSE

Renewable energy sources

Famine/starvation

RECYCLE

Landslides/avalanches

Earthquakes/hurricane/tornado

Danger of extinction/ in danger of dying out

Overpopulation

Ozone depletion

Acid rains/hazardous wastes

Exhaust fumes

Environmental problems

Land fills

Carbon monoxide

Keep the environment tidy

Extreme situations

Wildlife

Homeless people

organic fruit and vegetables.

THE RED BOOK

Porches destroy the animals' habitats

recycled, recyclable, reliable, repairable, refillable, reusable things
