

# The Future of Money

R&D organization on Collective Intelligence

2 MAIN GOALS:

- Create global wisdom driven organizations
- Create the next free currencies systems

# WE WILL NOT TALK ABOUT...

# Observe this picture

# What is a currency?

A tool to:

- Measure
- Store
- Exchange

An  
information  
system

# CONVENTIONAL MONEY

# The conventional monetary system

Like an ecosystem with a monetary mass so it can perform its own exchange.

# PARETO EFFECT

Kevin Carter

# PARETO EFFECT CREATES SCARCITY

# Privatization and monopoly of money

Banks are supposed to provide the missing monetary mass where it's missing, but...

- Private money
- Interest
- Pareto effect
- Intrinsic instability

# MONETARY WEALTH CONCENTRATION

Distribution of Wealth, U.S. Households, 2004

- Wealthiest 1% of families owns 34.3% of the nation's net worth
- The top 10% of families owns over 71%
- The bottom 40% of the population owns way less than 1%.

# Consequences of a scarce currency

- Harsh competition, war
- Scarcity paradigm
- Masculine world
- Proprietarization
- Concentration of power
- Opacity, secrecy
- Selfishness

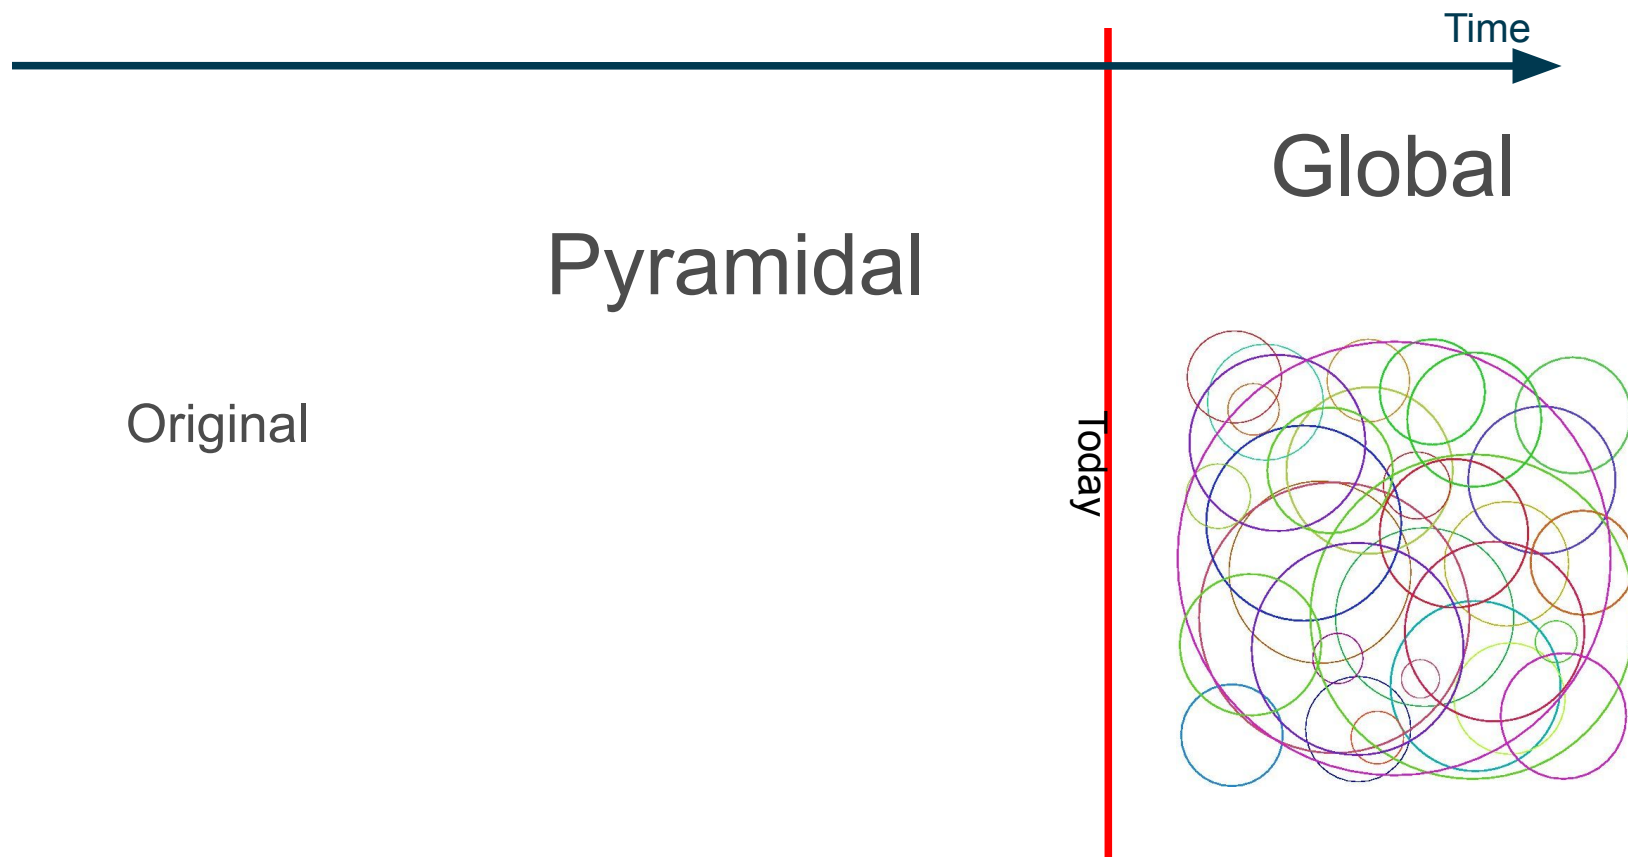

# Sao Paulo

# Different forms of collective intelligence

A scarce currency is...

A powerful

invisible architecture

from which a societal  
structure unfolds.

# Observe this picture again

Every form here  
has been shaped  
by scarce money:

- Traffic to get to work for the salary
- Cars (an object of desire & power)
- Fossil energy paradigm
- Junk advertizing
- Street survival jobs and sales
- Junk electric wiring
- Straight streets and wild urbanism
- Low cost infrastructure investments
- etc...

# WEALTH

# Wealth, money, free currencies

## Wealth

Free time, friendship, health, shelter, education, food, family, ethics, car, art, travel, land, reputation, clothing, nature, hobby, etc.

## Conventional money

Tool to trade tradable wealth in the context of scarcity.

## Free currencies

Tool to acknowledge, measure or trade wealth in whatever form.

# THE COMING FREE CURRENCIES

- Generic technology
- Open source (free)
- Commons
- Citizen sovereignty
- Sufficient
- By millions
- Multi-device

# A profile in the flowplace

## Fernanda Ibarra

Member since 7 July 2008

Expert in collective intelligence,  
social media and online  
communities

Filter:           add/edit

My highest intention is service to the human emergence movement through becoming an integrated being (body, mind, emotions and spirit) and the doing in the realms of collective intelligence, wisdom and consciousness (CIWC).

I am a Global Collective Intelligence pioneer, passionate about creating new forms and catalyzing social transformation projects.

- [Social media strategy](#)
- [Mexico representation](#)

[More...](#)

# MILLIONS OF CURRENCIES

- Each organization, each network will use multiple internal currencies (acknowledgeable, measurable, tradable)
- Each person will use multiple currencies. Ex: local, regional, network, corporate
- Cell phones, Internet, new devices
- Sufficient, free

# KEY QUESTIONS

- Why future organizations and social networks cannot succeed with conventional money anymore?
- How these new currency systems will be an innovative response to current worldwide challenges?
- How can we prepare ourselves? What actions can we take now?
- How can today's organizations -- companies, banks, governments -- use these new currencies now for their own development, efficiency and competitiveness?
- What are the new markets and business opportunities?
