

# LEXICAL PROBLEMS OF TRANSLATION

---

Lecture 4.

# Lexical problems

- The object of translation is not a \_\_\_\_\_
- \_\_\_\_\_ in which the SL words make up an integral whole.
- Though each word in the language has its own meaning, \_\_\_\_\_
- \_\_\_\_\_ depends, to a great extent, on its \_\_\_\_\_ environment.

# Lexical problems

---

- The \_\_\_\_\_ of any word in the text cannot be \_\_\_\_\_  
\_\_\_\_\_ to the specific context in which it is actualized.

# Lexical problems

- Some words, however, are less \_\_\_\_\_ to the \_\_\_\_\_ influence than others.
- There are words with \_\_\_\_\_
- \_\_\_\_\_, which are retained in \_\_\_\_\_, and are relatively \_\_\_\_\_.

# Handling context-free words

- Context-free words are mainly found among
- \_\_\_\_\_
- \_\_\_\_\_;
- among \_\_\_\_\_
- \_\_\_\_\_;
- \_\_\_\_\_.
- Context-free words have \_\_\_\_\_ equivalents in TL which, in most cases, can be used in TT.

# Handling context-free words

- The \_\_\_\_\_
- of context-free words are often formed by \_\_\_\_\_ (with possible elements of \_\_\_\_\_) or \_\_\_\_\_.

# Handling context-free words

---

- ▣ *Proper and geographical names are*  
\_\_\_\_\_/
- ▣ e.g.: Smith - Смит, Brown - Браун,  
John Fitzgerald Kennedy - Джон  
Фитцжеральд Кеннеди; Cleveland -  
Кливленд, Rhode Island — Род-  
Айленд, Ontario — Онтарио;  
Downing Street — Даунинг-стрит,  
Foley Square — Фоули-сквер.

# Handling context-free words

- The same is true about *the* \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_, e.g.: Life-  
Лайф», US News and World Report —  
«ЮС ньюс энд уорлд рипорт», General  
Motors Corporation - «Дженерал  
моторс корпорейшн», Harriman and  
Brothers — «Гар-риман энд бразерс»,  
Anaconda Mining Company —  
«Анаконда майнинг компани».

# Handling context-free words

- Transcription is also used to reproduce in TL \_\_\_\_\_
- \_\_\_\_\_:
- Queen Elisabeth — «Куин Элизабет», Spitfire — «Спитфайр», Hawk — «Хок», Trident - «Трайдент», Honest John - «Онест Джон».

## Minor exceptions

**First**, transcription is sometimes supplemented by

---

are reproduced in TT instead of \_\_\_\_\_.

(Dorset — Дорсет, Bonners Ferry — Боннерс Ферри)

## Minor exceptions

---

- Some elements of SL \_\_\_\_\_ are preserved so as to make the TL equivalent \_\_\_\_\_
- \_\_\_\_\_
- (the Hercules missile — ракета «Геркулес»,
- Columbia - Колумбия).

# Minor exceptions

- **Second**, there are some traditional exceptions in rendering the names of \_\_\_\_\_  
\_\_\_\_\_,  
e.g.: Charles I — Карл I, James II — Яков II,
- Edinburgh — Эдинбург.

# Handling context-free words

- Some \_\_\_\_\_ are made up of common nouns and are translated \_\_\_\_\_
- \_\_\_\_\_:
- *the United States of America* - Соединенные Штаты Америки,
- *the United Kingdom* — Соединенное Королевство,
- *the Rocky Mountains* — Скалистые горы.

# Handling context-free words

- 
- 
- If the name includes both a \_\_\_\_\_
  - \_\_\_\_\_, the former is \_\_\_\_\_ while the latter is either \_\_\_\_\_ or \_\_\_\_\_ or both:
  - the Atlantic Ocean - Атлантический океан,
  - Kansas City— Канзас-сити,
  - New Hampshire - Нью-Хемпшир,
  - Firth of Clyde — залив Ферт-оф-Кпайд.

# Handling context-free words

- ▢ *Names of political parties, trade unions and similar bodies are usually \_\_\_\_\_*
- ▢ \_\_\_\_\_ (with or without a change in the \_\_\_\_\_):
- ▢ *the Republican Party* — республиканская партия,
- ▢ *the United Automobile Workers Union* — Объединенный профсоюз рабочих автомобильной промышленности,
- ▢ *the Federal Bureau of Investigation* - Федеральное бюро расследований.

# Handling context-free words

- *Terminological words* are also relatively \_\_\_\_\_ though the context often helps to identify the specific field to which the term belongs.
- The context may also help to understand the \_\_\_\_\_ when it can denote more than one \_\_\_\_\_.

# Handling context-free words

---

- **Two common causes of translation errors:**
- **First**, English and Russian terms can be \_\_\_\_\_ but different \_\_\_\_\_.
- A "decade", an "instrument", a "department" (in the United States).

# Handling context-free words

- **Second**, the translator should find a proper Russian equivalent.
- A "packing industry" - «консервная промышленность»,
- "conventional armaments" - «обычные вооружения»
- and a "public school" in Britain - «частная школа».

# Handling context-free words

---

- ☐ Translation of technical terms puts a \_\_\_\_\_ of ST.
  - ☐ He must get familiar with the \_\_\_\_\_
  - ☐ \_\_\_\_\_ and make good use of technical dictionaries and other books of reference.
-

# HANDLING CONTEXT-BOUND WORDS

- All words have meanings of their own which are defined in \_\_\_\_\_ but the context may \_\_\_\_\_ the word's meaning, \_\_\_\_\_ some part of its semantics.
- And before looking for an equivalent, the translator has to make \_\_\_\_\_ of the context to identify the \_\_\_\_\_ of the word that should be rendered in translation.

# HANDLING CONTEXT-BOUND WORDS

- Most of the words *are* \_\_\_\_\_, that is, they have \_\_\_\_\_.
- As a rule, the word is used in the sentence in \_\_\_\_\_ and the context must show what meaning has been \_\_\_\_\_ by the speaker and cut off all other meanings \_\_\_\_\_
- \_\_\_\_\_ of communication.

# HANDLING CONTEXT-BOUND WORDS

- No less important is the role of the context in translating the words with a \_\_\_\_\_ whose equivalents are too \_\_\_\_\_ to be listed in any dictionary.
- Rate – 14 meanings in the dictionary.

# HANDLING EQUIVALENT-LACKING WORDS

- Many English words have \_\_\_\_\_
- \_\_\_\_\_, and a number of \_\_\_\_\_ has been suggested for rendering the meanings of such equivalent-lacking words in TT.

# HANDLING EQUIVALENT-LACKING WORDS

- When new words come into being to denote \_\_\_\_\_, they naturally cannot have \_\_\_\_\_
- \_\_\_\_\_ in another language.
- Therefore the translator coming across a \_\_\_\_\_ has to \_\_\_\_\_ its meaning and to choose the \_\_\_\_\_ of rendering it in his translation.

# HANDLING EQUIVALENT-LACKING WORDS

- "In many European capitals central streets have been recently pedestrianized."
- "pedestrianize" - from the word "pedestrian" — «пешеход» and the verb-forming suffix *-ize*.
- «движение транспорта было запрещено», «улицы были закрыты для транспорта» or «улицы были отведены только для пешеходов».

# Equivalent-lacking words referring to various SL realia

- The translator tries to transfer the name to TL by way of \_\_\_\_\_
- \_\_\_\_\_.
- Many English words have been introduced in Russian in this way:
- «бейсбол» (baseball), «небоскреб» (skyscraper), «саквояжники» (carpet baggers), etc.

# Equivalent-lacking words

- Quite a number of \_\_\_\_\_
- \_\_\_\_\_, however, still have substitutes in \_\_\_\_\_ Russian, and the translator has to look for an \_\_\_\_\_ each time he comes across such a word in the ST.
- "Filibustering", "baby-sitter", "know-how", and many others.

# Equivalent-lacking words

- Special attention should be paid to English \_\_\_\_\_ which are often used differently from their \_\_\_\_\_
- \_\_\_\_\_ in Russian and are, in fact, equivalent-lacking.
- Such common conjunctions as “\_\_\_\_\_”
- \_\_\_\_\_ and some others are not \_\_\_\_\_ in translation and should be most carefully studied.

# Equivalent-lacking words

---

- The same situation can be observed in case of \_\_\_\_\_
- \_\_\_\_\_ as *-minded*,  
*-conscious*, *-oriented*, *-manship*, etc.
- Such cases \_\_\_\_\_ the  
translator to \_\_\_\_\_ to some  
semantic \_\_\_\_\_.

# HANDLING TRANSLATOR'S FALSE FRIENDS

- There are words in the source and target languages which are \_\_\_\_\_.
- \_\_\_\_\_.
- Such words are of great interest to the translator since he is \_\_\_\_\_ to take this \_\_\_\_\_ for the \_\_\_\_\_.
- and to regard the words that look alike as \_\_\_\_\_.

# HANDLING TRANSLATOR'S FALSE FRIENDS

- Very few \_\_\_\_\_ have the same meanings in \_\_\_\_\_
- \_\_\_\_\_.
- “Parliament, theorem, diameter” and their Russian counterparts «парламент, теорема, диаметр».

# HANDLING TRANSLATOR'S FALSE FRIENDS

---

- In most cases, however, the semantics of such words in English and in Russian does not \_\_\_\_\_ and they should \_\_\_\_\_ "pseudointernational".
- Their \_\_\_\_\_ suggesting that they are \_\_\_\_\_ , is, therefore, deceptive and may lead to translation errors.

# HANDLING TRANSLATOR'S FALSE FRIENDS

- For that reason they are often referred to as the \_\_\_\_\_
- \_\_\_\_\_
- "decade, complexion, lunatic" and the like.
- (Десятилетие, цвет лица, сумасшедший).

# Lexical transformations

- Lexical transformations are not simple special methods of translation.
- They are the methods of \_\_\_\_\_
- \_\_\_\_\_ by means of which we convey meanings of foreign words in the context and find their \_\_\_\_\_ of \_\_\_\_\_ translation which do not \_\_\_\_\_ with a dictionary.

# Reasons for making LT

- There are **four reasons** for using lexical transformations:
- different languages choose \_\_\_\_\_ of the same phenomenon or \_\_\_\_\_ in the meaning of the word,
  - *e.g. glasses- очки*  
*school leaver - выпускник*

# Reasons for making LT

---

- differences in the \_\_\_\_\_ of the word.  
*e.g. brittle-хрупкий, ломкий (English word is wider)*
- additional meaning: brittle temper – вспыльчивый характер, brittle manner – нервная манера;
- but “хрупкое здоровье” - delicate health (not brittle health).

# Reasons for making LT

- different\_\_\_\_\_.
- *e.g. trains run – поезда ходят;*
  - *rich feedings- щедрое угощение;*

# Reasons for making LT

- there are traditional for each language\_\_\_\_\_
- \_\_\_\_\_.
- It can be different clichés, orders and so on.
- *e.g. no smoking- курить запрещено*

# Reasons for making LT

---

- A word may be more widely used in one language, while in another it may have a \_\_\_\_\_ or even \_\_\_\_\_ meaning.
- The choice of one of the meanings of a word depends merely upon the \_\_\_\_\_
- \_\_\_\_\_.

## Reasons for making LT

---

- The choice of a \_\_\_\_\_ may depend upon different \_\_\_\_\_ of a word.
- In case of \_\_\_\_\_ everything depends upon the environment of the word which usually \_\_\_\_\_ the meaning of the word.

# Definition

Translation transformation is  
.....of  
structural and semantic .....  
between the source and translation  
texts.

**Transformations can be lexical,  
grammatical and  
lexical-grammatical.**

# Lexical transformations:

- 
- Transcription/transliteration;
  - Descriptive way of translation;
  - Word-for-word translation;
  - Concretization;
  - Compensation;
  - Generalization;
  - Antonymic translation;
  - Functional substitution;
  - Logical (sense) development.

# Lexical transformations

---

- **Concretization** is a linguistic case when the SL word or word combination with \_\_\_\_\_ is replaced by the TL word or word combination with \_\_\_\_\_.
- *e.g. Have you had your meal?*
- *Вы уже позавтракали?*

# Lexical transformations

---

- **Generalization** is a case when the SL word with some \_\_\_\_\_ is substituted for the TL word with \_\_\_\_\_ semantic meaning.
- e.g. *He visits Jane every weekend.*
- *Он навещает Джейн каждую неделю.*

# Lexical transformations

- **Logical development** is the \_\_\_\_\_ of one notion by another provided that they are \_\_\_\_\_.
- *e.g. acid test – лакмусовая бумажка.*

# Lexical transformations

- **Antonymic translation** is a complex system of lexical-grammatical substitutions in the process of which \_\_\_\_\_ sentences and \_\_\_\_\_ constructions are substituted for the TL \_\_\_\_\_ ones, or one word for its \_\_\_\_\_.
- *e.g. Never drink unboiled water – пейте только кипяченую воду.*

# [ Lexical transformations ]

- **Compensation** is the complex replacement by means of which the \_\_\_\_\_
- in one place of the SL text is rendered in another and quite often by \_\_\_\_\_ in the TL text.

# Lexical transformations

---

- We resort to compensation in order to \_\_\_\_\_
- \_\_\_\_\_ of the original text.
- *e.g. entailment (запутанность, затруднительное положение)*
- *перевод: «когда тебе прищелят хвост».*

- **Descriptive way of translation-**  
is usually used together with  
                    and used to  
translate terms, unique objects,  
special cultural notions.
- e.g. *krujalo - wing-shaped base of  
cupola of the wooden church.*

# Lexical transformations

- **Functional substitution**- is used, when no one of the \_\_\_\_\_ given in the dictionary suit in a particular context.
- It is used while translating \_\_\_\_\_ or words which are not fixed in the dictionaries.
- *e.g. French window - стеклянные двери.*
- *Mushroom millionaire – ч-к, который быстро разбогател.*

# Lexical transformations

---

- **Transcription/Transliteration**- is used, when we reproduce \_\_\_\_\_ or \_\_\_\_\_ of the SL by means of \_\_\_\_\_ or \_\_\_\_\_ of the TL.
- We usually transcribe or transliterate proper and geographical names, sport teams, titles of periodicals, names of firms, corporations, etc.
- e.g. *Minnesota- Миннесота*,
- *Michigan – Мичиган*.

# Lexical transformations

- **Word-for-word translation**- when we reproduce not the \_\_\_\_\_ but elements of the \_\_\_\_\_ when components of the combination are translated by respective elements of TL.
- *e.g. Supreme Court- Верховный Суд*
- *The united States of America – Соединенные Штаты Америки.*

# Questions for the seminar:

---

Петренко Н.М.

Практикум з перекладу

рр. 26 ex. 1, 4, 5, 10.

рр.36-37 ex.6

Definitions of all the lexical transformations with your own examples.

# Exercises

- ***1. Suggest the Russian substitutes for the following names and titles.***
- 1. Washington Irving, Edgar Allan Poe, Dorothy Parker, James Thurber, James I, Langston Hughes, Charles Evans Hughes, Charles III,
- Victor Hugo, DuPont, Watt Hugh McCollum, Mike Quin, Art Buchwald, Nataniel Hawthorne, Ambrose Bierce, William Parker, William IV, Mitchell Wilson, Woodrow Wilson

- 2. Albany, New South Wales, Santa Anna (Calif), Firth of Tay, Ivory Coast, New Orleans, New Hampshire, Utah, Wyoming, New Mexico, Blenheim, Webster Springs, Wells River, Red Lake, East Greenwich, Munich, West Rocky River, West Delaware River, Cornwall, Zurich, Cape Verde Islands

- 3. Downing Street, Whitehall, Wigmore Hall, Windsor Castle, Festival Gardens, Fifth Avenue, Trafalgar Square, Charing Cross, Haymarket Theatre, Harley Street, Mansion House, Lombard Street

- 4. National Bank; Associated British Foods; Aluminium Company of Canada, Ltd; Standard Oil of New Jersey, Imperial Group; London, Midland and Scottish Railway; London Broadcasting Company; Warner Brothers; Butterworth and Dickenson, textile engineers; Independent Television News; Associated Press
- 5. Financial Times, Labour Weekly, New York Herald Tribune, Wall Street Journal, Political Affairs, Morning Star, Paris Soir

## ***2. Translate the following sentences with particular attention to the way the proper and geographical names should be rendered into Russian.***

- 1. A tourist's heart may leap at first sight of the Thames as it cuts through the heart of London because of the spectacle of massed totems such as Parliament, Whitehall, St. Paul's Cathedral and the Tower of London that rise majestically near it, and the 15 bridges bearing storybook names and images: Westminster, Waterloo, Blackbriars, London Bridge and Tower Bridge. But nearly everything worth the price of a snapshot sits on the northern bank.

- 2. After the death of Charles I in 1649 puritanical attitudes to the visual arts did not favour the development of architecture and the destruction, begun under Henry VIII, was renewed during and after Civil War (1642-1646). Whatever the merits of government under Cromwell it was a sad period for architecture.

- 3. Another change which affected architecture was the growth of an educated middle class. From Chaucer to Shakespeare, to Ben Jonson and Inigo Jones, to Wren and Newton, to Hume, Gibbon and Robert Adam and on to Soane, Carlyle, Ruskin and Morris, the "middling sort of people" were taking over and amplifying the secular role which had been played by clergy in earlier times when clerics were almost the only people who could read and write.

### 3. Translate the following words and collocations. Explain your choice of the type of equivalents.

- 1. administrative efficiency; 2. arbitration; 3. affidavit; 4. Attorney-General; 5. balance of payments; 6. adverse trade balance; 7. to stuff the ballot; 8. casting vote; 9. close vote; 10. back-bencher; 11. to bail out; 12. election returns; 13. brinkmanship; 14. job bias; 15. political bias; 16. brain drain; 17. State of the Union message; 18. income tax; 19. frame-up; 20. career diplomat; 21. red-baiting campaign; 22. breakthrough; 23. bread-line; 24. circumstantial evidence; 25. gerrymandering; 26. craft union; 27. open shop system; 28. brain washing; 29. non-contiguous States; 30. company checkers; 31. contempt of court; 32. crippling taxes; 33. polling date; 34. defendant; 35. color-blind; 36. conglomerate; 37. social work; 38. the Chief Executive; 39. hardware; 40. software

4. Analyse the terminological units in the following sentences and suggest the way they should be translated into Russian.

- 1. We, the human race have braved the violent electromagnetic Aura around Jupiter and photographed its puzzling moons.
- 2. Once established, aspen seedlings tend to reproduce themselves vegetatively by root suckering.
- 3. General Motors, Ford and Chrysler combine autos and computers in novel ways. They offer such features as self-adjusted suspensions, sensors, that alter fuel mixture for efficient combustion and systems that diagnose a car's mechanical troubles.

- 4. Organ transplants will become more successful in the future because of an experimental agent that prevents rejection, say doctors from 12 medical centers. Reporting in the New England Journal of Medicine, the researchers found that a specially engineered monoclonal antibody halted rejection episodes in 58 of 63 patients who had received new kidneys. By comparison, drug treatment halted rejection episodes in only 45 of 60 patients.
- 5. Viruses may cause multiple sclerosis, according to two studies in the British medical journal Lancet.

I. State what meanings of polysemantic words are actualized in the following sentences. Can the equivalents provided by your dictionary be used in the translation? If not, suggest an equivalent of your own.

- 1. Alan Rees, a businessman, was accused of handling the negotiations for ransom. 2. After the play the notices were unanimously favorable and there was praise for all concerned. 3. The actor had an awkward grace that could not be copied by anyone in the business. 4. Listen, we all have funny moods. We wouldn't be human if we didn't.

II. Find appropriate Russian equivalents to the word "record" in the following sentences.

- 1. The new candidate was known to have an excellent war record. 2. His father has a record of service with the company of 20 years. 3. It was clear that the general had carefully studied his aid's service' record. 4. Washington D.C., the US capital, is the city with the highest crime record. 5. By resorting to mass terror and armed violence against the black population of South Africa its rulers reached a new shameful record in their racial oppression. 6. The AF of L is absolute boss of the strike-breaking International Confederation of Free Trade Unions. Its imperialist record fits it for this task.

I. Make a careful study of the following groups of words. Note the difference in the meaning in English and in Russian and suggest the appropriate equivalents.

- 1. actual  $\Phi$  актуальный; 2. appellation  $\Phi$  апелляция; 3. aspirant  $\Phi$  аспирант; 4. balloon  $\Phi$  баллон; 5. baton  $\Phi$  батон; 6. billet  $\Phi$  билет; 7. compositor  $\Phi$  композитор; 8. concern  $\Phi$  концерн; 9. depot  $\Phi$  депо; 10. direction  $\Phi$  дирекция; 11. fabric  $\Phi$  фабрика; 12. genial  $\Phi$  гениальный; 13. intelligence  $\Phi$  интеллигенция; 14. motion  $\Phi$  моцион; 15. motorist  $\Phi$  моторист; 16. obligation  $\Phi$  облигация; 17. physique  $\Phi$  физик; 18. probe  $\Phi$  проба; 19. protection  $\Phi$  протекция; 20. pathos  $\Phi$  пафос

2. Note the meanings of the English international words and translate them in the examples cited below

- 1. extravagant *adj.* 1. spending much more than is necessary or prudent;
- wasteful; 2. excessively high (of prices)
- We mustn't buy roses — it is too extravagant in winter.
- 2. catholic *adj.*, (esp. likings and interests) general, wide-spread; broad-minded; liberal; including many or most things
- Mr. Prower was a politician with catholic tastes and interests.

- 3. dramatic *adj.* 1. sudden or exciting; 2. catching and holding the imagination by unusual appearance or effects.
- How would you account for such dramatic changes in the situation?
- 4. minister/?. 1. Christian priest or clergyman; 2. a person representing his Government but of lower rank than an ambassador.
- The British minister at Washington was requested to notify his Government of a possible change in the agenda of the forthcoming meeting.

- 5. routine *n.* the regular, fixed, ordinary way of working or doing things
- Frequent inspections were a matter of routine in the office.
- 6. pathetic *adj.* \. sad, pitiful; exciting pity or sympathetic sadness; affecting or moving the feelings; 2. worthless, hopelessly unsuccessful.
- Perhaps it was merely that this pathetic look of hers ceased to wring his heart-strings.

- 7. pilot *n.* 1. a person qualified to steer ships through certain difficult waters or into or out of a harbor; 2. a guide or leader.
- Before entering on his literary career Mark Twain was employed as pilot on vessels going up and down the Mississippi river.
- 8. student *n.* (of smth.) a person with a stated interest; anyone who is devoted to the acquisition of knowledge.
- The recently published work of the world-known ornithologist will be interesting to any student of bird-life.
