CLUB TROPICANA

New York's hip-hop street style is given a tropical spin with killer South American-inspired prints. Parrots, flamingos and hibiscus flowers dash with acid bright denim, while cutesy heart print hot pants and sassy, spray on bodycon dresses scream: 'Welcome to Rio!' Finish your look off with lace layers, lashings of gold jewellery and high top trainers in bubblegum shades.

Meadow

Take a trip to the English countryside with billowing chiffon, bleached denim and delicate florals that conjure up a summer's day. Toughened-up with studded waistcoats, lace-up boots and leather accessories, lace, crochet and intricate embroidery are given a harder edge for spring.

SALOON

Give your wardrobe a high-kick with cancan ruffles, saloon inspired frills, broderie anglaise and delicate cutwork that's fit for a cowgirl. Teamed with indigo denim, beaten-up leather and casual canvas, dusty coloured tulle and sun-faded prints reflect the warm, heady nights of the Wild West.
