History of my school

Our school building was built in 1972. It became one of the best schools of Russia in 2008. Our school has all the necessary facilities for studies.

Our garden

There are many beautiful flowers in our garden. We also grow potatoes, beetroot, carrots, cucumbers, tomatoes, and cabbage there.

Our library

If we need some information for our lessons we go to the library. Our librarian Irina Alexandrovna is always ready to help us.

Our assembly hall

Our assembly hall is big and beautiful.
We have different concerts and
conferences there.

Our canteen

Our canteen is very unusual. There is a blue dolphin on the wall. The cakes in our canteen are very tasty.

Our gym

Many students like our gym. We usually do sports there. I often go to play basketball there after lessons.

Our computer class

Our computer class has modern computers.
We can also surf the Internet there.

My class

There are 28 students in my class. My teacher's name is Svetlana Yuryevna. She is kind, clever and nice. We like our teacher very much and try to get only good marks.

Welcome to our school!!!
