SCHOOL LIFE

INTRODUCTION

- It is often said that the best years of our lives are spent at school... but for others they represent teen's hardest challenge.
- With this work we want to show you the bright side and the dark side of school life. We will talk about some situations that happen at school like projects/ Clubs, relationship with teachers, problems with our peers, study (good or bad marks) and how it affects the relationship with others (our parents., friends, teachers)

RELATIONSHIPS

- Friendship – friends always help each other but in some cases friends can be a bad influence.
- Loveship – it is hard to have time to study and to go out with a boyfriend / girlfriend and sometimes it can affect our study in a negative way because we can't focus in our work.
- Parenthood – sometimes parents get mad when we have bad marks and make us study harder by forbidding us of doing the things we like the most.

CONCLUSION

- With this work we didn't learn anything new, since we are all part of this environment, we have just reflected about aspects that we experience every day and that can be useful for future decisions.

AT THE UNIVERSITY OF ALL DIFFERENTLY THAN IN SCHOOL.
EVERYTHING IS MORE COMPLICATED. HERE IS ANOTHER
SYSTEM. WE FOUND A LOT OF FRIENDS. AS OUR SMALL
UNIVERSITY WE DO NOT HAVE OFFICES AND WE HAVE A LOT
OF FREE TIME THAN IN SCHOOL. AT SCHOOL WE WEAR
UNIFORMS AND HERE WE WEAR A WHITE COAT WITH A CAP.
WE HAVE A GROUP OF 11 PEOPLE. WE ALREADY KNOW
EACH OTHER WELL. HERE THE CREDIT SYSTEM. HERE
EVERYTHING IS DIFFERENT THAN IN HIGH SCHOOL. LESSON
HERE IS MORE COMPLICATED. WE LIVE IN A DORM WITH
SOME RELATIVES. AND WE MISS HOME. UNIVERSITY LIFE HAS
TAUGHT US A LOT. AND WE HAVE BECOME MORE ADULT. I
LOVE MY UNIVERSITY. THIS MAKES ALL THE DIFFERENCE THAT I
DO KNOW THAT FOR 3 WEEKS. I THINK MORE WILL BE EVEN
BETTER....
