

Just stay
human!

Since ancient times nature has served man, being the source of his life. For thousands of years people lived in harmony with environment

But with the development of civilization man's interference in nature began to increase ...

Large cities with thousands of smoky industrial enterprises have appeared all over the world today.

The byproduct of their activity pollutes

the air we breathe

the water we drink

the land we
grow grain

And all the atmosphere

Vast forests are cut and burn in fire

As a result ...

**Some
species of
animals,**

birds,

fish and plants

disappear forever ...

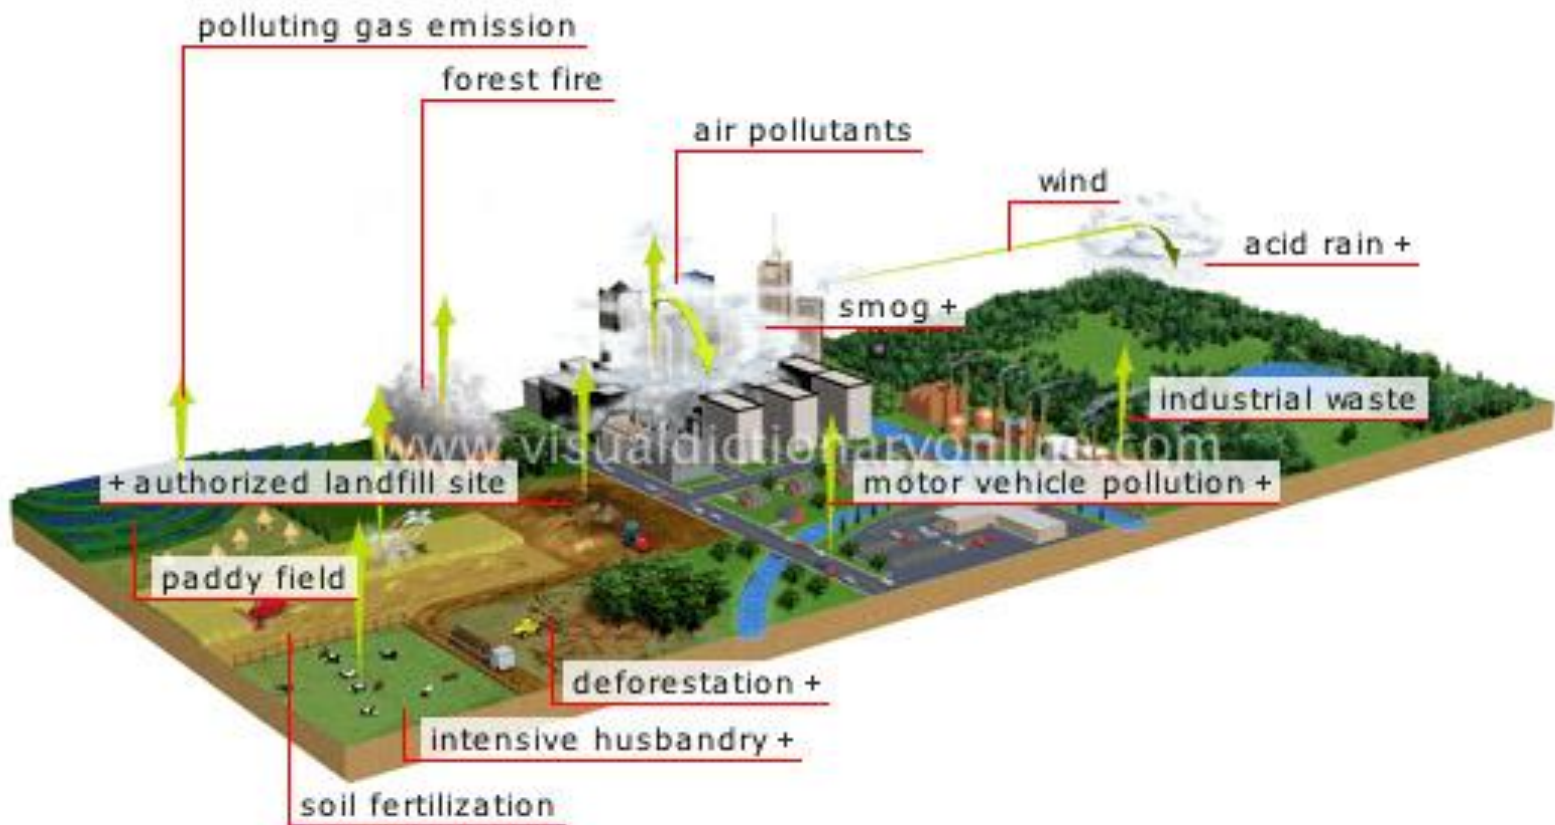

**a number of lakes and rivers
dry up**

We faces
many
ecologic
al
problems

Air pollution

DANGER
Radiation
risk

Land pollution

Greenhouse effect

Killing animals

The environment is so
beautiful! We should preserve
it!

ANIMAL LIBERATION

make the connection
