

A close-up photograph of a Lincoln car's interior, focusing on the steering wheel and dashboard. The steering wheel is made of dark leather with a polished wood rim and features the Lincoln logo in the center. The dashboard has a wood-grain finish and includes a speedometer, tachometer, and a central infotainment screen displaying 'CERTIFIED'. The text 'Canada wheels presents' is overlaid in white on a dark rectangular background.

**Top new car
technologies**

Run-flat tires

**This scenario is what makes
run-flat tires the most
desired high-tech option of
them all**

Dual-stage airbags

If you've ever felt the force of an airbag hitting you in the face after a fender-bender, you understand the appeal of dual-stage "smart" airbags.

Navigation systems

Many car makers are learning that buyers are willing to pay more than twice the cost of a portable navigation system for an in-dash navi.

A close-up photograph of a car's interior. On the right side, there is a circular speaker grille with a fine mesh pattern, set into a light-colored, textured surface. Below and to the left of the speaker, a portion of a control panel is visible, featuring several buttons and a small display screen. The overall lighting is soft and warm, highlighting the textures of the car's materials.

Premium surround sound

**Luxury surround-sound systems like the
are the most talked-about in car
circles.**

Active cornering headlight system

**These "smart" headlamps are probably
the most crucial part of your cars**

Back-up assist

Many cars have adopted the rear-view camera to boost visibility when backing up.

A close-up photograph of a car's side mirror. The mirror is black and has a circular camera lens mounted on its side. The background is a blurred view of a road and other vehicles, suggesting the car is in motion.

Blind spot detection

**It's probably a good thing
this feature can usually be
turned on or off at will.**

Heated and cooled seats

Heated seats have been around a while, but now the heated/cooled option is gaining in popularity.

Advanced keyless entry system

**These "smart" systems stay in your
pocket or purse and automatically
unlock the doors**

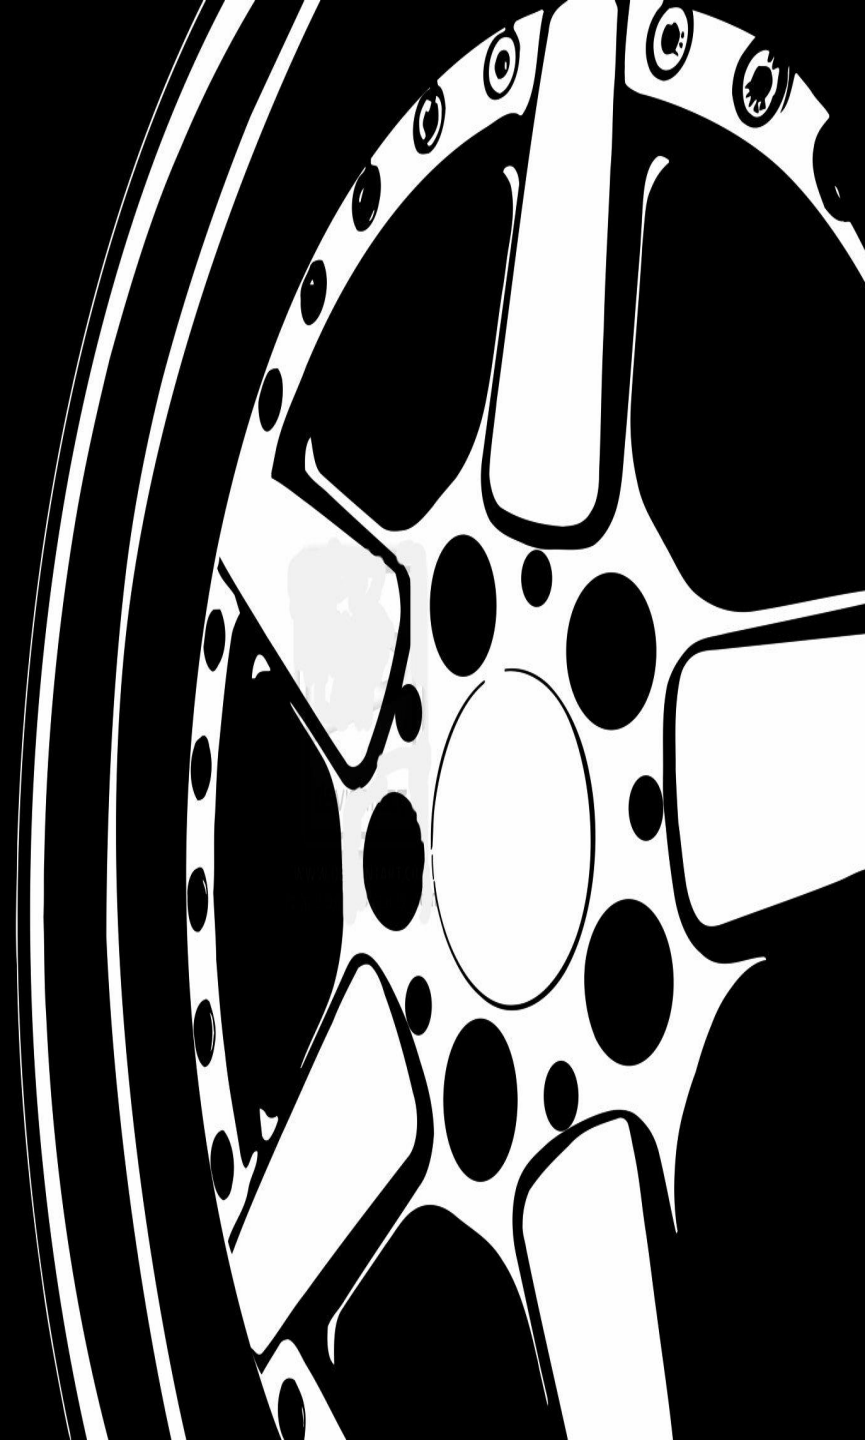

Personal assistance safety services

**Personal safety is must, and these
latest car technologies provides it first.**

About us

**We sell the best
custom rims for your
cars as well as for
trucks.**

**Big brands like a
Good Year,
Bridgestone,
Yokohama etc are
available here.**
