

A close-up photograph of a Lincoln car's interior, focusing on the steering wheel and dashboard. The steering wheel is leather-wrapped with a wood-grain rim and features the Lincoln logo in the center. The dashboard includes a speedometer, tachometer, and a central infotainment screen displaying 'CERTIFIED'. The text 'Canada wheels presents' is overlaid in white on a dark background across the center of the image.

Canada wheels presents

**Canada wheels
presents**

**Top new car
technologies**

A close-up photograph of a red car's front wheel. The wheel features a silver, multi-spoke alloy hubcap with the BMW logo in the center. The tire is black with visible tread patterns. The car's body is a vibrant red color. The background is a plain, light-colored surface.

Run-flat tires

**This scenario is what makes
run-flat tires the most
desired high-tech option of
them all**

Dual-stage airbags

If you've ever felt the force of an airbag hitting you in the face after a fender-bender, you understand the appeal of dual-stage "smart" airbags.

Navigation systems

Many car makers are learning that buyers are willing to pay more than twice the cost of a portable navigation system for an in-dash navi.

A close-up photograph of a car's interior, focusing on a circular speaker grille. The grille is dark with a fine, perforated mesh and is set within a light-colored, textured surface, likely leather or a high-quality plastic. The lighting is soft, highlighting the texture of the surrounding material. The text is overlaid on a semi-transparent dark band across the middle of the image.

Premium surround sound

**Luxury surround-sound systems like the
are the most talked-about in car
circles.**

Active cornering headlight system

**These "smart" headlamps are probably
the most crucial part of your cars**

Back-up assist

Many cars have adopted the rear-view camera to boost visibility when backing up.

Blind spot detection

**It's probably a good thing
this feature can usually be
turned on or off at will.**

Heated and cooled seats

A black leather car seat is shown from a rear perspective. The seat is divided into two vertical sections. The left section is shaded darker and has blue arrows pointing outwards from the seat surface, representing cooling. The right section is lighter and has blue arrows pointing inwards towards the seat surface, representing heating. The seat has a headrest and a seatbelt buckle is visible at the bottom right.

Heated seats have been around a while, but now the heated/cooled option is gaining in popularity.

Advanced keyless entry system

**These "smart" systems stay in your
pocket or purse and automatically
unlocks the doors**

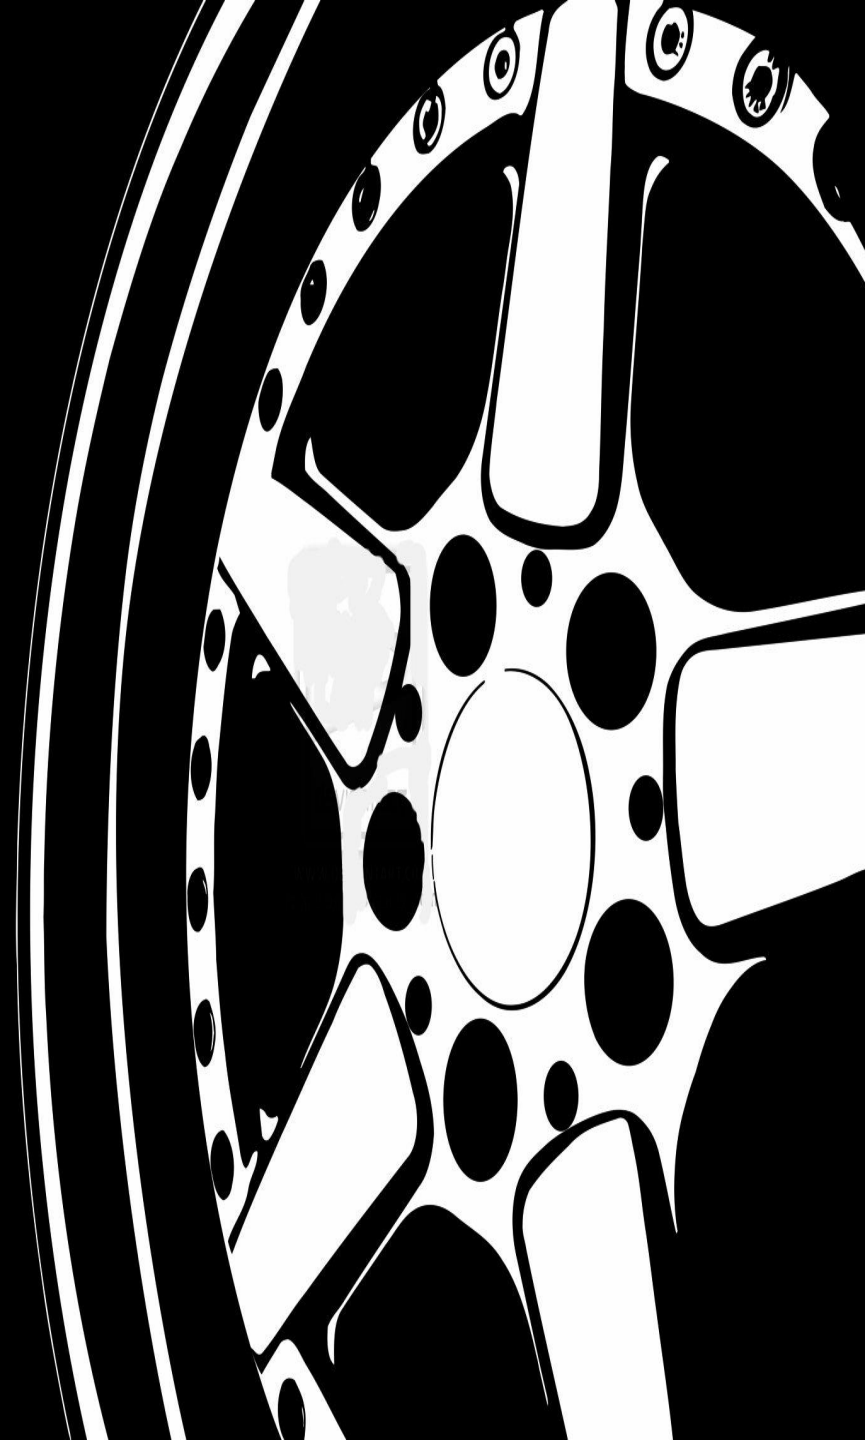

Personal assistance safety services

Personal safety is a must, and these latest car technologies provide it first.

About us

We sell the best custom rims for your cars as well as for trucks.
