# Top 10 Exotic Sports Cars

- Be it a motor head or an average car junkie, riding a high-revving, sleek-looking sports car tops the wish list of anyone who has ever been behind the wheel. We have compiled a list of top 10 exotic cars that will leave your jaws dropped. Check them out.

## Bugatti Veyron Super Sport

Bugatti holds the reputation of making the world's most exquisite autos look inexpensive, impotent, old school, and trivial by comparison. Its sole model, the Veyron, is a nine-figure supercar meant only for a privileged few. This speed demon makes a monstrous 1,200 bhp of power, boasts of face-distorting acceleration and offers of a top speed of 431 kmph. Need we say any more!

## Koenigsegg Agera R

Understated, uber-cool and very Swedish, the really, really fast Agera R has smashed six world records for production cars to emerge as one of the fastest cars on the planet. Now what less can you expect from a car that packs in a gigantic 1,115 bhp and boasts of a claimed top speed of 275 mph. Endowed with Michelin Super Sports tires and an aerodynamic set-up design, the Agera R is priced at Rs 12.5 crores in India.

## Pagani Huayra

With 720 horses bolting out of its thunderous Mercedes-Benz AMG V12, Pagani's newest million-dollar hypercar, the Huayra is meant for the very loaded motor heads with a taste for the truly exotic. Nicknamed as the "God of Wind", this fast-paced, ultra-exclusive car with a nine-figure price tag and boasting of AMG-sourced 6.0-liter twin-turbo V12 engine is indeed a thing of pride for the owner and envy for the rest of the world.

## Lamborghini Aventador LP 700

Lamborghini's new hypercar - the Aventador LP 700, is a perfect blend of angular beauty, mind-blowing acceleration and brain-boggling top speed of 217 mph at 8,250 rpm in seventh gear. Powered by a handcrafted, 700-horsepower V12, this new-age Lamborghini too drives all four wheels. One must exercise caution while driving it though. With so much power and grip, a wrong crack of the throttle can certainly knock down Earth's natural rotation!

## McLaren Mercedes SLS Black

It was after the exit of its long-standing performance partner McLaren, Mercedes-Benz launched its stratospherically expensive Mercedes-Benz SLR McLaren that came with an eye-watering £300,000 price tag. Possibly the best-looking and certainly the best-sounding supercar till date, the SLS AMG promises to give you wings!

## Ferrari F12 Berlinetta

The latest and the fastest stallion to wallop out of Ferrari's stable, the F12 Berlinetta is a fine juxtaposition of muscular curves and hard crease lines. Priced at £250,000, the Berlinetta has been designed with the driver in mind. Its user-friendly "Human Machine Interface" groups all the useful bits within easy and logical reach. The top speed is 212 mph.

## Aston Martin One-77

If you lust after Aston Martin DBS, then wait until you see a One-77? Priced a whopping \$1.5 million, this Aston Martin stands second to none when it comes to exuding charm and sophistication. A show-stopper in every sense — from technology to engineering and craftsmanship, this sport scar is simply unbeatable. Endowed with V12, 7.3-liter engine, it produces a mammoth-sized 750 bhp and hits an incredible 220 mph in a tidy 3.5 seconds.

## Audi R8 V10

The Audi R8 gets better than ever! Powered by the Lamborghini-sourced V10, it unleashes multiple echelons of mechanical crescendo, thanks to its two-cylinders. A driver's delight, the Audi R8 shoots 525 horsepower to all the four-wheels through its quattro all-wheel-drive system.

## Chevrolet Corvette C6 ZR1

Carved out of power, performance and prestige, the Chevrolet Corvette ZR1 comes with a handcrafted LS9 638-horsepower supercharged V8 that develops a mind-blowing top speed of 205 mph. Swathed in style and oomph and boasting of a refined and luxurious interior, the ZR1 is the fastest and possibly the most powerful car Chevrolet has ever made, and competes against the best sports vehicles in the world.

## Nissan GT-R

Nissan GT-R is nothing short of a technical marvel, dedicated to the pursuit of racing around a racetrack faster than anything else. Armed with a hand-built, twin-turbo 3.8-liter V6, it unleashes 530 horsepower. Its six-speed dual-clutch transmission is another technological marvel that swaps cogs faster than any human. Lastly, its advanced all-wheel drive system allows the car to stay planted on the tarmac. Truly a delight!
