**SAFETY FEATURES
IN CONNECTED CARS**

YOU ONLY LIVE TWICE.

LASER HEADLIGHTS

AUDI R8

Laser headlights triggers a low beam when an oncoming vehicles is sensed and flashes a warning light when pedestrians are spotted.

A front-facing view of a red Cadillac CTS driving on a paved road. The car is centered in the frame, moving towards the viewer. The background is a blurred residential street with houses and trees. A semi-transparent dark grey box is overlaid on the right side of the image, containing text.

SMART BELTS

CADILLAC CTS

Smart Belts detects the driving pattern of the driver to self tighten itself, ensuring better safety.

A dark blue Mercedes-Benz S-Class sedan is shown from a front-three-quarter view, parked on a paved road. The background features a sunset over a flat landscape with distant mountains. The sky is a mix of orange, yellow, and light blue. The car's license plate is 'S MB 1091'.

SMART CAMERA AND RADAR

MERCEDES S- CLASS

Smart Camera and Radar provides a 360° view of the road. The sensor is so strong, it alerts the driver about approaching animals, rocks etc.

A red Nissan SUV is shown from a side-rear perspective, parked on a paved road. The background features rolling hills and mountains under a clear sky. The car has silver wheels and a roof rack. A semi-transparent text box is overlaid on the right side of the image.

SMART REAR VIEW MIRROR

NISSAN

Smart rear view mirror allows the driver to switch between the camera and the mirror .
Get a smart view without obstructions.

RADAR WARNING SYSTEM

CADILLAC ATS

Radar-based collision warning system, alerts the drivers of any approaching object. This pre-charges the brakes for improved stopping time.

LANE CONTROL SYSTEM

INFINITY Q50S

Lane control system alerts the driver to stay within the lane. The cameras adjust while changing lanes to prevent rear end collision.

JUNCTION VIEW CAMERAS

RANGER ROVER SPORT

Junction view cameras provide live video from the corners of the car to see the blind spots.

CYCLIST DETECTION

VOLVO XC60

This beauty has a radar sensor fixed on the front grille and a camera behind the rearview mirror. This provides a wide field of vision to detect pedestrians and cyclists.

INFOTAINMENT FEATURES

IN CONNECTED CARS

PLAYLISTS ARE FOREVER

Wi-Fi HOTSPOT

Chevrolet Impala

Inbuilt Wi-Fi function connects the driver's smartphone to the internet. Passengers can now run mobile applications while driving.

SMART KEYS

TESLA MODEL S

Smart Keys allows the driver to control the central locking system via car mobile application.

IN-CAR GAMING

TOYOTA HIGHLANDER 2014

Rear seat passengers can access an entertainment package with RCA coaxial input. This enables support for the latest gaming systems.

HAND GESTURES

CADILLAC ATS

Digital touch screens with haptic feedback and proximity sensors detects driver's hand gestures to prevent accidents.

RUN MULTIPLE APPLICATIONS

KIA SOUL

Passengers can now run more than one application . Get real time sports score and weather updates and much more simultaneously.

HANDWRITING RECOGNITION

AUDI A3

Passengers can control multimedia entertainment, navigation etc., by drawing letters, numbers and symbols on a touch-sensitive pad.

SPEECH TO TEXT

BMW 7 Series

Send an email or sms via dictation function that turns speech into text on the dashboard

TEXT TO SPEECH

DODGE DART

While driving, hear and respond to text messages via text to speech function .

**NAVIGATION FEATURES
IN CONNECTED CARS**

**THE MAPS ARE NOT
ENOUGH**

A white Lexus GX460 SUV is shown from a front-three-quarter view, parked on a sandy beach. The background features the ocean with waves and a sunset sky with soft, colorful clouds. The car's headlights and fog lights are visible, and the Lexus logo is on the front grille. A dark semi-transparent overlay is positioned on the right side of the image, containing text.

3-D

NAVIGATION

LEXUS GX460

This system features 3D maps that provides a 3D overview of buildings and landmarks.

PARKING ASSISTANT

CADILLAC ATS

The parking assistant technology helps parallel park the car automatically for the driver.

TRAFFIC NOTIFICATION

ACURA MDX

Traffic Notifications gives real time traffic information to the driver and suggests alternative routes.

CONCIERGE SERVICE

BMW X5

This feature provides one point concierge service for all your searches and syncs the details to the navigation system.

**SERVICE NOTIFICATION
IN CONNECTED CARS**

**FROM DEALER, WITH
LOVE**

INTELLIGENT EMERGENCY CALL

BMW X5

This feature tracks the exact position of the car and the severity of the accident. The data is transmitted to the BMW call center to speedup rescue operations.

SMART WINDSCREEN

JAGUAR LAND ROVER

Smart Windscreen displays information like speed, navigation and positioning, through the heads up display function

VEHICLE DIAGNOSTICS

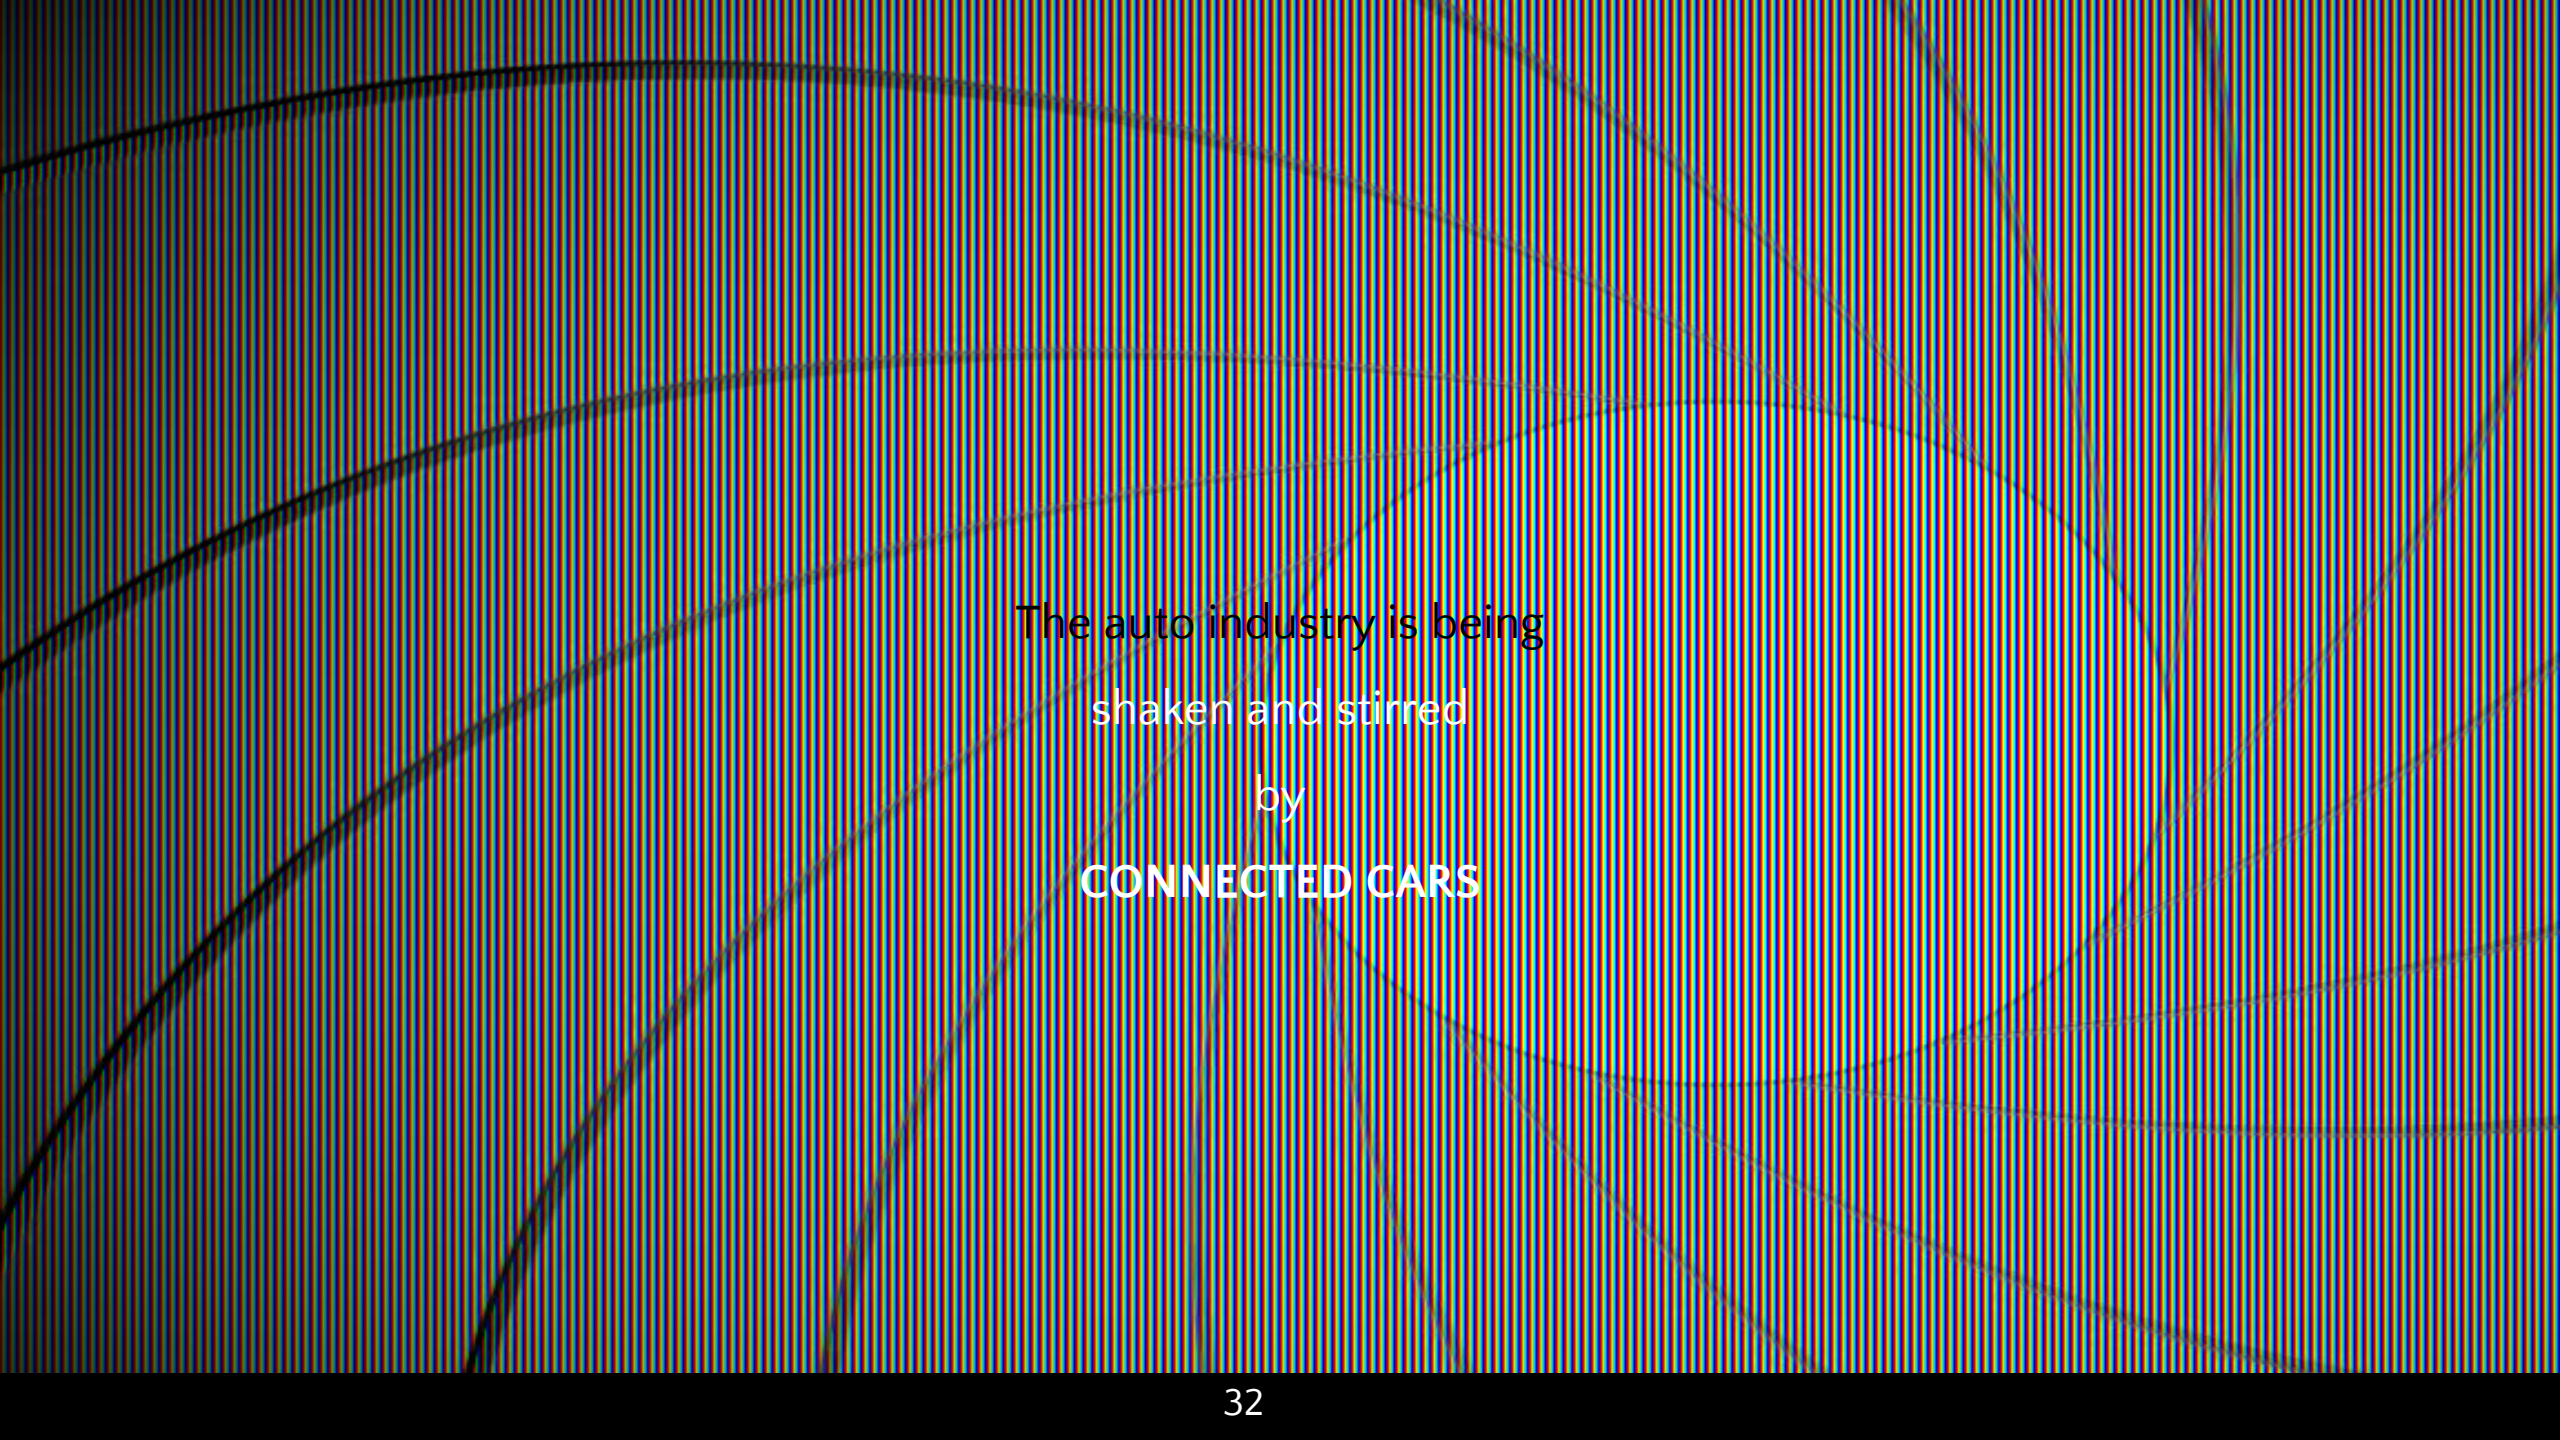

KIA SOUL

Vehicle diagnostics service alerts the driver to spot the defects before hand. This prevents sudden breakdown.

VEHICLE HEALTH APPS

MERCEDES B CLASS

Vehicle health provides car's vital stats, such as charge state, temperature level of the vehicle through a smartphone app.

The background features a dark, almost black, gradient. Overlaid on this are several thin, light-colored curved lines that sweep across the frame from the left side towards the right. A faint, light-colored grid pattern is also visible, particularly on the right side of the image, creating a sense of depth and structure.

The auto industry is being
shaken and stirred
