

INNOVATE!

GlobalLogic  
Leaders in Software R&D Services

GlobalLogic

- 10 лет на мировом рынке R&D услуг по разработке программных ИТ решений
- Предоставляет полный цикл разработки, инжиниринга и консалтинга
- Частная компания с инвестициями от Sequoia Capital, NEA, Draper Atlantic / NAV и Goldman Sachs

- US \$160M обороты, 40%+ CAGR
- 240+ клиентов и партнеров
- 5,000+ сотрудников по всему миру

- Штаб квартира в США, центры продаж в Англии, Германии, Израиле, Индии и Украине
- Глобальные R&D центры и инновационные лаборатории в Аргентине, Индии, Китае и Украине

*“A product development company like GlobalLogic is doing more than just providing offshore developers — it is seeking to collaborate with clients at a strategic level and provide executives with on-demand access to global innovation networks.”*

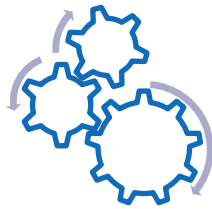

*— Forrester Research  
“Being Innovative Means Moving Beyond the Hype”*

- Инновации – это очень дорого
  - На самом деле это самый дешевый способ обеспечить себе конкурентные преимущества, точки дифференциации и супер прибыли
  - Офис «под ключ» обходится нашей компании в \$150/кв.м. капитальных затрат – сравните свои расходы. После чего сравните наши офисы ...
  - Самый дорогой атрибут – Сигвей. Стоимость – 48 000 грн, амортизируем на 5 лет, делим на 12 мес, делим на 1700 сотрудников – 50 копеек на человека в мес. Сравнимо с пакетиком чая. Неужели Ваши сотрудники не готовы купить такую игрушку?
- В бюджете на этот год деньги не заложены
  - Посмотрите на Ваши операционные расходы. Даже если там нет отдельного бюджета на инновации, внедрение инновационного решения обычно окупает само себя в первый же год, то есть его можно «самофинансировать». Основные затраты на инновации – организация брейнсторминга и последующая проработка идей
- У нас рутинный бизнес, в нем нет места инновациям
  - Все люди творческие, нужно только дать им возможность проявить себя
  - Именно рутинный и системный бизнес является идеальным полем для инноваций, так как позволяет отвлечь персонал от рутины и получить эффект масштаба

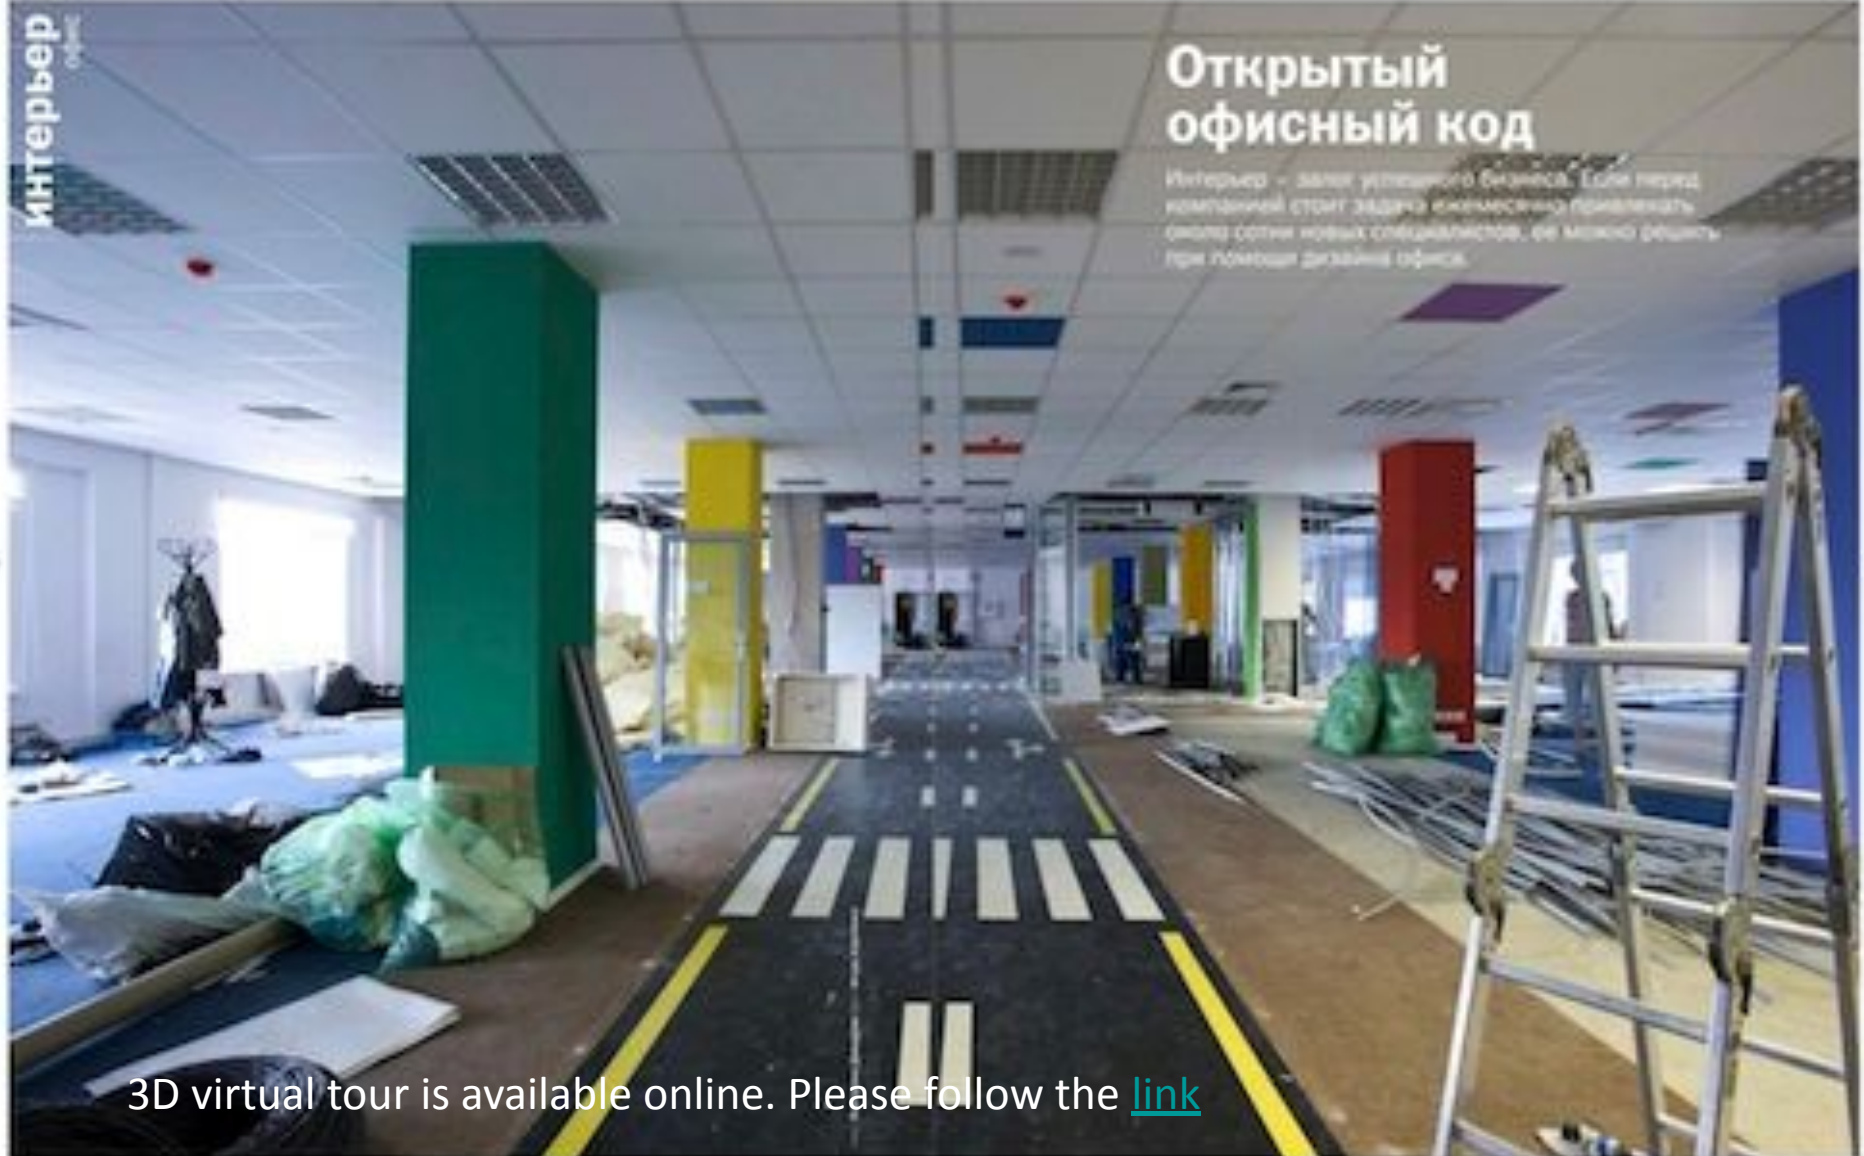

- **Внутренние**
  - Офисная инфраструктура, которая вдохновляет на творчество и предоставляет все необходимое для инноваций «на лету»
  - Среда для регистрации идей сотрудников, их обсуждения и хранения, голосования за лучшие
- **Клиентские**
  - Платформа, которая позволяет разрабатывать инновационные продукты распределенными командами по всему миру
  - Портал для регистрации идей, которые возникают у наших сотрудников при реализации проектов заказчика, открытый для клиентов и позволяющий организовать эффективное обсуждение и последующую реализацию этих идей

- He types in the Idea Title, description of his idea and selects a category and subcategory.
- He checks his USD Balance, decides to invest 50 USDs.
- He then publishes the Idea.

- This event is promoted into GLO Activity Stream

# Рекомендуем Идею

- He Recommends this Idea to his colleagues Rost & Sumeet, requesting them to participate in it.

- Employee profile searches powered by GLO

# Инвестируем в Идею

The screenshot shows the GLIDE website interface. At the top, there is a navigation bar with the GLIDE logo, a search bar, and user information: 'Welcome John Doe', 'Close Application and go back to GLO', and 'Logout'. Below the navigation bar, there is a 'Your Balance: 500 IRPs' and 'Settings' link. The main content area features a 'What's Your Idea?' input field and a navigation menu with 'Idea Stream', 'My Contributions', 'My Watchlist', and 'Recommendations'. A modal window is open over the 'Android Platform Architecture' idea, showing an investment form. The form displays 'You have 348 IRPs' and 'Invest 50 IRPs' with a green 'Invest' button and a grey 'Cancel' button. Below the modal, there are two idea cards: one by 'Monika Galler' and one by 'Paul Chris'. The 'Paul Chris' card shows a rating of 5 stars and '473 IRPs invested'.

- Rost agrees to invest 50 USDs into the initiative

- Activities generated in GLO for Rost's contribution

# Заявка на участие в разработке Идеи

The screenshot shows the GLIDE web application interface. At the top, there's a navigation bar with 'Welcome John Doe', 'Close Application and go back to GLO', and 'Logout'. Below that, a search bar and a 'Your Balance: 500 IRPs + Settings' indicator are visible. The main content area features a 'What's Your Idea?' input field and tabs for 'Idea Stream', 'My Contributions', 'My Watchlist', and 'Recommendations'. A modal window titled 'Participate in "Android Platform Architecture"' is open, containing a form with the following fields:

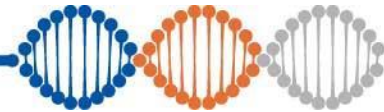

- 'Select' dropdown menu
- 'I'd like to participate as' text input
- 'Type in your suggested role' text input
- 'Total time' section with 'Weeks, working' and 'Hours/day' inputs
- 'I'd like' text input followed by 'IRP(s) for my efforts'
- 'Add an optional message' text input
- 'Seeking' list with options: Usability Analyst, Tester, QA Specialist, Database Architect
- 'Cancel' and 'Participate' buttons

Background elements include user profiles for 'Monika Galler' and 'Paul Chris', and various interactive elements like 'Vote' buttons and 'Invest' buttons.

- Sumeet bids to work as a Project Manager for this Idea for USDs for next few weeks

- Activities generated in GLO for Sumeet's bid, and invitation for others to put additional bids on the Idea

# Создание Команды для реализации Идеи

The screenshot shows the GLIDE web application interface. At the top, there is a navigation bar with the GL logo, user information (Welcome John Doe), and options to close the application or log out. Below the navigation bar, there is a search bar for ideas and a 'Your Balance: 500 IRPs' indicator. The main content area is titled 'What's Your Idea?' and has tabs for 'Idea', 'Wiki', and 'Team'. The 'Team' tab is active, showing a list of team members for the idea 'Android Platform Architecture'. The team list includes roles like Project Manager, Technical Architect, Usability Analyst, Android Developer, and Tester, with names and allocation options. Below the team list is a table of 'Bids Submitted' with columns for Name, Role, Time, Payment, Comment, and Allocation. The 'Add Roles' sidebar on the right allows adding new roles to the team.

Name	Role	Time	Payment	Comment	Allocation
Ashutosh Rana	Technical Architect	2 w, 2 hr/day	30 IRPs	None	Allocate
Netesh Chandra	Usability Analyst	1 w, 3 hr/day	35 IRPs	I've worked on 2 Android apps :)	Allocate
Manish Chauhan	Android Developer	3 w, 2 hr/day	40 IRPs	I like your idea! I want to help.	Allocate
Sumeet Saxena	Project Manager	4 w, 2 hr/day	45 IRPs	None	✓
Ankur Bahri	Usability Analyst	4 w, 3 hr/day	55 IRPs	None	✓

- John finalizes team structure based on bids and evaluation of contributors

- Notification in GLO about the event
- USD balances updated

# Проработка идеи - обсуждение

The screenshot displays the GLIDE web application interface. At the top, there is a navigation bar with the GLIDE logo, a search bar, and user information (Welcome John Doe, Close Application and go back to GLO, Logout). Below the navigation bar, there is a main content area with a search bar and a 'What's Your Idea?' input field. The main content area is divided into two tabs: 'Idea' and 'Wiki'. The 'Idea' tab is active, showing the details of an idea titled 'Android Platform Architecture'. The idea has 21 votes and is currently hidden. The idea description is a list of names: Khushbu Bhatewara, Shiv Singh, Vibhore Vasant, Ankit Sharma, Eugene Kalyuzhniy, Paul Chris, Abhishek Upadhyay, Dheej Vaniserry, Anil Sood, Anu Vaid, Sumeet Saxena, Khushbu Bhatewara, Shiv Singh, Vibhore Vasant, Ankit Sharma, Eugene Kalyuzhniy, Paul Chris, Abhishek Upadhyay, Dheej Vaniserry, Anil Sood, Anu Vaid, Sumeet Saxena, Ranju Nigam, Deepika Dutta, Deepak Tjoni. Below the idea description, there is a list of collaborators: Monika Galler (Ideaator), Shiv Singh (Make Co-Ideator), and Vibhore Vasant (Make Co-Ideator). The 'Wiki' tab is also visible, showing a rich text editor with a toolbar and a text area. The 'Contributors' section lists: Monika Galler (Ideaator), Shiv Singh (Make Co-Ideator), Vibhore Vasant (Make Co-Ideator), Ankit Sharma (Make Co-Ideator), and Eugene Kalyuzhniy (Make Co-Ideator). The 'Files' section lists: Project Scope.docx (Monika Galler, 24th Oct, 2010), Process Flow.pptx (Shiv Singh, 26th Oct, 2010), Tentative Plan.xlsx (Monika Galler, 1st Nov, 2010), Requirement Analysis.pdf (Monika Galler, 3rd Nov, 2010), and Layout.psd (Deepika Dutta, 11th Nov, 2010). At the bottom of the page, there is a footer with links: FAQ, About GLIDE, Help, Contact the GLIDE Team.

## Activity Stream: Velocity Solutions

January 11 - 3 pm

- Amit Giri** changed the Fix Version/s to 'Release 2.0' on **VES-1592** (Executive dashboard(OnTime-On Quality): Scenario: A project has no Release i.e. their Sprint is itself a release.In this case On time & On quality Indicators are not working!.)
- Amit Giri** created **VES-1592** (Executive dashboard(OnTime-On Quality): Scenario: A project has no Release i.e. their Sprint is itself a release.In this case On time & On quality Indicators are not working!.)
- Lav Kumar** resolved **VES-1575** (Executive Dashboard(Executive Dashboard:(On Quality Metric-Functional))-->The value of "Known Quality Debt" is calculated wrong..)

January 11 - 2 pm

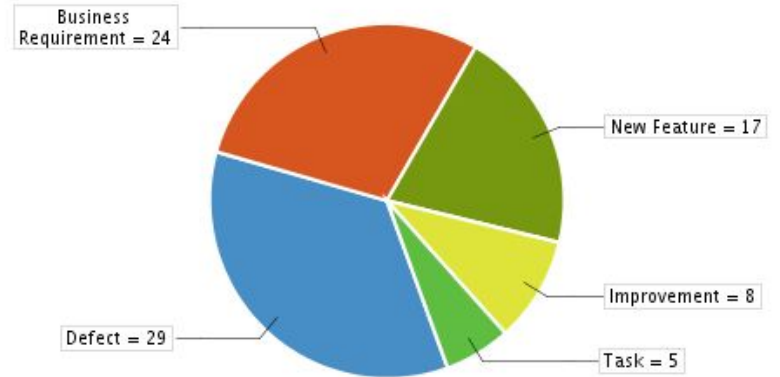

# Requirements – Product Backlog

Filter Results: Velocity Product Backlog				
T	Key	Summary	Pr	
	VES-1737	As user of TFS , I would like to see 'OnTime KPI' on Executive dashboard, So that i can predict whether the on going Release will be meeting the schedule or not?	↑	⚙️
	VES-1734	Executive Dashboard ( On Quaiy Metric/On-Time): While calculating the parameter 'remainingStorySprintsCount', only week days should be considered(excluding weekends).	↓	⚙️
	VES-1733	Executive Dashboard ( On Quaiy Metric):-Negative:-> Wrong computation of parameter 'timeToFixQualityDebt'.	↓	⚙️
	VES-1732	Executive Dashboard(Time Zone Difference):Time Zone difference is not supported!	↑	⚙️
	VES-1729	Release Management plugin(security): User is able to create version/sprints/release in all the projects listed on production server.	↑	⚙️
	VES-1727	Executive Dashboard ( On Quaiy Metric): Wrong computation of parameter 'forecastQualityDebt' if the default value of parameter 'PercentTeamTimeReducingQualityDebtDuringStorySprints' is taken.	↓	⚙️
	VES-1724	Executive Dashboard ( confluence hosting):Exception message is not clear!	↑	⚙️
	VES-1720	Executive Dashboard (Generic:Connecting multiple jira instances):-> 'Socket Timed Out Exception' occurred if any of the jira instance is down.	↑	⚙️
	VES-1719	Executive Dashboard:(Business Value):-> 'Targeted Business value' and 'Achieved Business Value' for sprint is not calculated correctly if the work-items are moved using 'Bulk Edit' operation of issue navigator.	↑	⚙️
	VES-1716	Executive Dashboard ( On Time Metric):At End date of Sprint-1 the " Average Velocity" should be taken/calculated from the configuration file rather then gets calculated from the real data .	↓	⚙️
